How to Win an Election
An Ancient Guide for Modern Politicians

Quintus Tullius Cicero
Translated and with an introduction by Philip Freeman

“In his election advice to his brother Marcus, Quintus Cicero shows himself to be a master political strategist with a clear understanding of opposition research, organization, and turnout (though a little weak on message). Fresh, lively, and sharp, this primer provides timeless counsel and a great read for the modern political practitioner.”
—Karl Rove, former deputy chief of staff and senior advisor to President George W. Bush

“Given the lowly state of politics these days, this ancient Roman handbook on electioneering shows how little has changed. Freeman has done a masterful job of bringing this delightful text into the modern day—so masterful that one might think it was actually a spoof.”
—Gary Hart, former U.S. senator

How to Win an Election is an ancient Roman guide for campaigning that is as up-to-date as tomorrow’s headlines. In 64 BC when idealist Marcus Cicero, Rome’s greatest orator, ran for consul (the highest office in the Republic), his practical brother Quintus decided he needed some no-nonsense advice on running a successful campaign. What follows in his short letter are timeless bits of political wisdom, from the importance of promising everything to everybody and reminding voters about the sexual scandals of your opponents to being a chameleon, putting on a good show for the masses, and constantly surrounding yourself with rabid supporters. Presented here in a lively and colorful new translation, with the Latin text on facing pages, this unashamedly pragmatic primer on the humble art of personal politicking is dead-on (Cicero won)—and as relevant today as when it was written.

A little-known classic in the spirit of Machiavelli’s Prince, How to Win an Election is required reading for politicians and everyone who enjoys watching them try to manipulate their way into office.

Philip Freeman received his PhD from Harvard University and holds the Qualley Chair of Classical Languages at Luther College in Decorah, Iowa.

Victorian Culture and Classical Antiquity
Art, Opera, Fiction, and the Proclamation of Modernity

Simon Goldhill

“Goldhill’s richly textured, skillfully argued, and improbably erudite journey through France, Germany, and Great Britain in the Victorian period will rightfully place him at the forefront of the burgeoning field of reception studies. Examining the varied, often wildly different influences of Greece and Rome in art, music, and fiction, with a glance at historiography, he situates the study of the classics in the political, social, intellectual, and religious currents of the time, with often surprising results.”

—Froma Zeitlin, Princeton University

Slaves Tell Tales
And Other Episodes in the Politics of Popular Culture in Ancient Greece
Sara Forsdyke

“In this original and arresting study, Sara Forsdyke explores Greek literature’s complex hybrid of elite literary culture and the non-elite, largely oral culture that lies below its surface. She ambitiously examines themes, imagery, and symbolism with a view to detecting subtle traces of sub-elite popular culture as it existed in both free and unfree social contexts. She is as interested, for example, in how slaves tell tales as she is in the tales the masters told themselves about their slaves; there has never been a book angled quite like this one before.”

Rome
Day One
Andrea Carandini
Translated by Stephen Sartarelli

“A fascinating examination of how Rome began some twenty-eight centuries ago, written by an archaeologist whose many years of excavation have profoundly altered our understanding of the city and its history.”
—Adrian Goldsworthy, author of Caesar: The Life of a Colossus

Andrea Carandini's archaeological discoveries and controversial theories about ancient Rome have made international headlines over the past few decades. In this book, he presents his most important findings and ideas, including the argument that there really was a Romulus—a first king of Rome—who founded the city in the mid-eighth century BC, making it the world’s first city-state, as well as its most influential. Rome: Day One makes a powerful and provocative case that Rome was established in a one-day ceremony, and that Rome’s first day was also Western civilization’s.

The New Atlas of World History
Global Events at a Glance
John Haywood

“Haywood presents a unique, global portrait of human history over six million years. A combination of brilliant design, clear narrative, and fascinating insights creates a compelling and evenhanded tapestry of the human experience. Everyone interested in our past will find this a compelling atlas for their bookshelves.” —Brian Fagan, University of California, Santa Barbara

The New Atlas of World History is the first historical atlas to present global history in a series of uniform world maps, allowing at-a-glance comparison between different periods and regions. This stunningly illustrated atlas features 55 specially commissioned full-color maps that cover the whole of human history, from 6 million years ago to today. Accompanying 48 of the maps are detailed illustrated timelines that list important cultures, events, and developments. Maps and timelines also come with concise introductions that summarize notable historical and cultural changes, as well as striking graphic displays that present key data such as the world’s five largest cities and total world population for the relevant year. An extensive glossary of peoples, cultures, and nations gives added depth to the maps and timelines.
