App for iPad
Barrington Atlas of the Greek and Roman World

Hailed by the New York Times as “the best geography of the ancient world ever achieved” and deemed by classicist Bernard Knox to be “an indispensable tool for historians concerned with ancient times” as well as “a source of great pleasure for the amateur,” the unsurpassed Barrington Atlas of the Greek and Roman World is now available in digital form as a full-featured app for the iPad. Including all the content of the print edition of the Barrington Atlas, the app makes this essential reference work more portable and affordable than ever before possible.

In 102 interactive color maps, this app re-creates the entire world of the Greeks and Romans from the British Isles to the Indian subcontinent and deep into North Africa. Unrivaled for range, clarity, and detail, these custom-designed maps return the modern landscape to its ancient appearance, marking ancient names and features in accordance with modern scholarship and archaeological discoveries. Geographically, the maps span the territory of more than seventy-five modern countries. Chronologically, they extend from archaic Greece to the Late Roman Empire.

A must-have for scholars, this app will also appeal to anyone eager to retrace Alexander’s eastward marches, cross the Alps with Hannibal, traverse the Eastern Mediterranean with Saint Paul, or ponder the roads, aqueducts, and defense works of the Roman Empire.

Designed exclusively for the iPad, the app uses the latest technology and is available for iPad 2 and above.

The Amazons
Lives and Legends of Warrior Women across the Ancient World
Adrienne Mayor

“In this fascinating book, which combines flowing prose, a lively and engaging presentation, and wonderful illustrations, Adrienne Mayor brings the reader into the excitement of discovering the truth about the Amazons. She demonstrates quite convincingly that the Amazon traditions largely derive from the undeniable historical fact that nomadic, armed horsewomen existed on the fringes of the ancient Greek world. Mayor is the first to examine the evidence systematically and in detail and she makes a concrete and persuasive case.”

Driven by a detective’s curiosity, Adrienne Mayor unearths long-buried evidence and sifts fact from fiction to show how flesh-and-blood women of the Eurasian steppes were mythologized as Amazons, the equals of men. The result is likely to become a classic.

Winner of the 2014 Popular Book Award, American Schools of Oriental Research

1177 B.C.
The Year Civilization Collapsed
Eric H. Cline

“1177 B.C. tells the story of one of history’s greatest mysteries. Unknown invaders shattered the splendid civilizations of the Bronze Age Mediterranean in a tidal wave of fire and slaughter, before Egypt’s pharaoh turned them back in a fierce battle on the banks of the Nile. We do not know who these attackers were, and perhaps we never will; but no archaeologist is better equipped to guide us through this dramatic story than Eric Cline. 1177 B.C. is the finest account to date of one of the turning points in history.”
—Ian Morris, author of Why the West Rules—for Now

A compelling combination of narrative and the latest scholarship, 1177 B.C. sheds new light on the complex ties that gave rise to, and ultimately destroyed, the flourishing civilizations of the Late Bronze Age—and that set the stage for the emergence of classical Greece.
Turning Points in Ancient History
2014. 264 pages. 10 halftones. 2 maps.
Cl: 978-0-691-14089-6 $29.95 | £19.95

“Nobody brings ancient history and archaeology to life like Adrienne Mayor.”
—Edith Hall, author of Introducing the Ancient Greeks: From Bronze Age Seafarers toNavigators of the Western Mind

“This is a great book—at once exhaustive, scholarly, thrilling, and imaginative, spanning the history, art, and imagination of ancient peoples from Italy to China.”
—John Boardman, University of Oxford

“The memorable thing about Cline’s book is the strangely recognizable picture he paints of this very faraway time. . . . Astonishing . . . with eerie relevance.”
—Adam Gopnik, New Yorker
Forthcoming
The Rise and Fall of Classical Greece
Josiah Ober

“This is a groundbreaking book on the ancient world. Displaying the narrative skill of a master historian, The Rise and Fall of Classical Greece is must reading.”
—Barry Strauss, author of The Death of Caesar: The Story of History’s Greatest Assassination

“An astonishing work. If you want to know what the fuss is about the ancient Greeks, this is the book to start with.”
—John Ma, University of Oxford

“This excellent book presents a wealth of new evidence on the economic performance of ancient Greece, and how that performance was linked to democratic institutions. The data that Ober presents are truly extraordinary. Moreover, the main story is well presented, well argued, and thoroughly enjoyable to read.”
—Robert Fleck, Clemson University

Lord Byron described Greece as great, fallen, and immortal, a characterization more apt than he knew. Through most of its long history, Greece was poor. But in the classical era, Greece was densely populated and highly urbanized. Many surprisingly healthy Greeks lived in remarkably big houses and worked for high wages at specialized occupations. Middle-class spending drove sustained economic growth. Classical wealth produced a stunning cultural efflorescence lasting hundreds of years.

Why did Greece reach such heights in the classical period—and why only then? And how, after “the Greek miracle” had endured for centuries, did the Macedonians defeat the Greeks, seemingly bringing an end to their glory? Drawing on a massive body of newly available data and employing novel approaches to evidence, Josiah Ober offers a major new history of classical Greece and an unprecedented account of its rise and fall.

Ober argues that Greece’s rise was no miracle but rather the result of political breakthroughs and economic development. The extraordinary emergence of citizen-centered city-states transformed Greece into a society that defeated the mighty Persian Empire. Yet Philip and Alexander of Macedon were able to beat the Greeks in the Battle of Chaeronea in 338 BCE, a victory enabled by the Macedonians’ appropriation of Greek innovations. After Alexander’s death, battle-hardened warlords fought ruthlessly over the remnants of his empire. But Greek cities remained populous and wealthy, their economy and culture surviving to be passed on to the Romans—and to us.

A compelling narrative filled with uncanny modern parallels, this is a book for anyone interested in how great civilizations are born and die.

This book is based on evidence available on a new interactive website. To learn more, please visit http://polis.stanford.edu/.

Foragers, Farmers, and Fossil Fuels
How Human Values Evolve
Ian Morris
Edited and with an introduction by Stephen Macedo
With commentary by Margaret Atwood, Christine M. Korsgaard, Richard Seaord & Jonathan D. Spence

“This is an important and stylistically excellent book written from a sophisticated materialist perspective. It is eminently readable, lively, and with clearly stated arguments explored in a systematic fashion. . . . Foragers, Farmers, and Fossil Fuels should have a serious impact.”

Most people in the world today think democracy and gender equality are good, and that violence and wealth inequality are bad. But most people who lived during the 10,000 years before the nineteenth century thought just the opposite. Drawing on archaeology, anthropology, biology, and history, Ian Morris, author of the best-selling Why the West Rules—for Now, explains why.
The result is a compelling new argument about the evolution of human values, one that has far-reaching implications for how we understand the past—and for what might happen next.

New Paperback

The Measure of Civilization
How Social Development Decides the Fate of Nations
Ian Morris

“A sophisticated volume designed to add quantitative muscle to [Morris’s] earlier arguments. . . . The ingenuity and style of his arguments will make economists and historians stand up and take notice.”
—Publishers Weekly

“The Measure of Civilization is a terrific book—it will inform, stimulate, and challenge you. Beautifully summarizing and quantifying the major developments in energy capture, social organization, war technology, and categorization, storage, and communication of information over the last sixteen millennia, this book shows how far we have come and how this journey has been a cumulative process.”
—Daron Acemoglu, coauthor of Why Nations Fail: The Origins of Power, Prosperity, and Poverty

Resolving some of the biggest debates in global history, The Measure of Civilization puts forth innovative tools for determining past, present, and future economic and social trends.

Forthcoming

The Birth of Politics
Eight Greek and Roman Political Ideas and Why They Matter
Melissa Lane

“This is the best introduction to ancient political thought—accessible, stimulating, thoughtful, and accurate. Melissa Lane, a scholar of the first rank, is a trustworthy guide who brings recent thinking to bear on the central topics and does an excellent job of writing with an eye to contemporary relevance, without removing ancient thinkers from their very different historical and political contexts.”
—Kinch Hoekstra, University of California, Berkeley

“This is a lucid, effective, and accessible account of ideas central to Greek and Roman political thought. Melissa Lane does an excellent job of synthesizing important developments in the study of the subject, and she also makes her own subtle, original argument, showing how we might well draw upon the ancients as we think through our own problems.”
—Danielle Allen, author of Our Declaration

A stimulating introduction to the origins of our political ideas and ideals, The Birth of Politics demonstrates how much we still have to learn from the political genius of the Greeks and Romans.

From Ancient to Modern
Archaeology and Aesthetics
Edited by Jennifer Y. Chi & Pedro Azara

As archaeologists unearth the past, they seek meaning and purpose for the objects they uncover by looking at the objects themselves and their archaeological context. Art historians, on the other hand, primarily focus on aesthetics, asking why a particular object stimulates our senses, and what that tells us about ourselves. From Ancient to Modern offers a lens for understanding ancient objects through the perspectives and processes of both archaeology and aesthetics, and, in so doing, illuminates the multiple layers of meaning that a single object can take on—sometimes simultaneously—over the course of its existence.

Women and Empire in Byzantium
Judith Herrin

“Herrin dissolves the most formidable barrier to any balanced history: the wall between women’s history and men’s. With an eye for details ignored and grand lines distorted by scholarly myopia, she offers a comprehensive history of Byzantium.”
2013. 352 pages. 9 halftones. Cl: 978-0-691-15321-6 $35.00 | £24.95

Margins and Metropolis
Authority across the Byzantine Empire
Judith Herrin

“Tracing her journey across the history of Byzantium, Herrin’s elegant essays display her insightful approaches, solid methodology, and vast historical knowledge.”
—Christine Angelidi, Institute of Historical Research, Athens
2013. 392 pages. 31 halftones. Cl: 978-0-691-15301-8 $39.50 | £27.95

Byzantium
The Surprising Life of a Medieval Empire
Judith Herrin

“The scope and shape of Herrin’s survey of Byzantine history and culture are impressive.”
—G. W. Bowersock, New York Review of Books
2009. 440 pages. 13 color illus. 29 halftones. 6 maps. Pa: 978-0-691-14369-9 $19.95 For sale only in the United States and Canada

European Literature and the Latin Middle Ages
Ernst Robert Curtius

“Curtius’s book, despite its age, remains vital for anyone interested in the fate of the classics in Western Europe.”
—Anthony Grafton, Princeton University
2013. 696 pages. Pa: 978-0-691-15700-9 $35.00 | £24.95

The Last Pharaohs
Egypt Under the Ptolemies, 305–30 BC
J. G. Manning

“Manning’s book is one of the most thought-provoking studies on the Hellenistic world to have appeared for quite some time, and it will be essential reading for anyone concerned with this remarkable period.”
—John Ray, Times Literary Supplement
2012. 280 pages. 8 halftones. 7 line illus. 2 tables. 1 map. Pa: 978-0-691-15638-5 $27.95 | £19.95

Rethinking the Other in Antiquity
Erich S. Gruen

“This absorbingly written work will lead to a reconsideration of questions regarding ethnic identity in the ancient Mediterranean world.”
—Benjamin Isaac, Tel Aviv University Martin Classical Lectures
2012. 432 pages. 8 halftones. Pa: 978-0-691-15635-4 $24.95 | £16.95 Cl: 978-0-691-14852-6 $59.95 | £41.95

The Roman Market Economy
Peter Temin

“Temin offers a sophisticated account of Rome’s economic institutions and practices that fundamentally revises and enriches our understanding of the prosperity and the decline of this major imperial power.”
—Alan K. Bowman, University of Oxford
The Princeton Economic History of the Western World
2013. 320 pages. 16 line illus. 16 tables. Cl: 978-0-691-14768-0 $35.00 | £24.95

How Ancient Europeans Saw the World
Vision, Patterns, and the Shaping of the Mind in Prehistoric Times
Peter S. Wells

“This book will revolutionize the way we think about the Iron Age.”
—Anthony Harding, University of Exeter
2012. 304 pages. 40 halftones. 6 line illus. 3 maps. Cl: 978-0-691-14338-5 $35.00 | £24.95
