Making War at Fort Hood
Life and Uncertainty in a Military Community
Kenneth T. MacLeish
“In bringing troops from the background to the front where they belong, this book should be required reading for Bush, Dick Cheney, Donald Rumsfeld and anyone else responsible for sending soldiers to that folly in the desert.”
—James T. Crouse, Times Higher Education
“Making War at Fort Hood is an ambitious, provocative book. It is an important work that deserves attention.”
—Jacqueline Whitt, H-Net Reviews
Making War at Fort Hood offers an illuminating look at war through the daily lives of the people whose job it is to produce it. Kenneth MacLeish conducted a year of intensive fieldwork among soldiers and their families at and around the US Army’s Fort Hood in central Texas. He shows how war’s reach extends far beyond the battlefield into military communities where violence is as routine, boring, and normal as it is shocking and traumatic.

**Being German, Becoming Muslim**
Race, Religion, and Conversion in the New Europe
Esra Özyürek

“Through thoughtful portraits, Özyürek explores the dilemmas faced by converts to Islam in Germany, where new Muslims are seeking nonethnic forms of the religion. She shows how these converts are finding an original way to be German through their Islam—a discovery that seems dangerous to some in the German state. A clear, convincing account of new Muslims in a European land.”
—John Bowen, author of *Can Islam Be French?*

“This book offers both a call and a hope. Özyürek shows the tremendous role of Muslim converts in making Islam a German and European religion, and she calls converts to meet this challenge. She also presents the common hope of everyone ‘living together’ in unity, and her book is an important contribution to the achievement of this goal.”
—Tariq Ramadan, University of Oxford

*Being German, Becoming Muslim* provides a fresh window into the connections and tensions stemming from a growing religious phenomenon in Germany and beyond.

Soft Force
Women in Egypt’s Islamic Awakening
Ellen Mclarney

“Soft Force is a brilliant and highly engaging book.”
—Omnia El Shakry, author of The Great Social Laboratory: Subjects of Knowledge in Colonial and Postcolonial Egypt

In the decades leading up to the Arab Spring in 2011, when Hosni Mubarak’s authoritarian regime was swept from power in Egypt, Muslim women took a leading role in developing a robust Islamist presence in Egypt’s public sphere. Soft Force examines the writings and activism of these women—including scholars, preachers, journalists, critics, actresses, and public intellectuals—who envisioned an Islamic awakening in which women’s rights and the family, equality, and emancipation are at the center.

Ancient Religions, Modern Politics
The Islamic Case in Comparative Perspective
Michael Cook

Why does Islam play a larger role in contemporary politics than other religions? Is there something about the Islamic heritage that makes Muslims more likely than adherents of other faiths to invoke it in their political life? If so, what is it? Ancient Religions, Modern Politics seeks to answer these questions by examining the roles of Islam, Hinduism, and Christianity in modern political life, placing special emphasis on the relevance—or irrelevance—of their heritages to today’s social and political concerns.

**The Hero’s Fight**

African Americans in West Baltimore and the Shadow of the State

Patricia Fernández-Kelly

“Fernández-Kelly tells these life stories with novelistic flair. This is not ordinary ‘interview’ data. It is hard won over years of direct immersion—watching people grow up, change jobs, give birth. *The Hero’s Fight* is inflected with intimacy. It is also a book of wide-ranging commentary that masters an extraordinary range of literatures.”

—Harvey Molotch, author of *Against Security: How We Go Wrong at Airports, Subways, and Other Sites of Ambiguous Danger*

Baltimore was once a vibrant manufacturing town, but today, with factory closings and steady job loss since the 1970s, it is home to some of the most impoverished neighborhoods in America. *The Hero’s Fight* provides an intimate look at the effects of deindustrialization on the lives of Baltimore’s urban poor, and sheds critical light on the unintended consequences of welfare policy on our most vulnerable communities.

Auyero and Berti offer important new insights into contemporary life on the periphery.”

—Gay W. Seidman, author of *Beyond the Boycott: Labor Rights, Human Rights, and Transnational Activism*

Arquitecto Tucci, a neighborhood in Buenos Aires, is a place where crushing poverty and violent crime are everyday realities. Homicides—often involving young people—continue to skyrocket, and in the emergency room there, victims of shootings or knifings are an all-too-common sight. *In Harm’s Way* takes a harrowing look at daily life in Arquitecto Tucci, examining the sources, uses, and forms of interpersonal violence among the urban poor at the very margins of Argentine society.

**The Politics of Evangelical Identity**

Local Churches and Partisan Divides in the United States and Canada

Lydia Bean

“The Politics of Evangelical Identity is a bracing corrective to the perception of evangelicals as theological stooges mesmerized by the spell of conservative masterminds. Bean persuasively argues that the appeal of conservatives in the evangelical base has far more to do with how they connect the political to everyday spiritual and religious practices. Her path-clearing and transformative book brilliantly engages the political perspectives, moral passions, and religious beliefs of evangelicals from a practical, grounded perspective.”

—Michael Eric Dyson, George-town University

“The Politics of Evangelical Identity is a very important book, a truly original and deeply insightful exploration of why America’s white evangelical Christians allied with the political Right to a degree that evangelicals in other countries have not.”
