Revised and Expanded Third Edition
Irrational Exuberance
Robert J. Shiller
Praise for the original edition:
“Robert Shiller . . . has done more than any other economist of his generation to document the less rational aspects of financial markets.”
—Paul Krugman, New York Times
In this revised, updated, and expanded edition of his New York Times bestseller, Nobel Prize–winning economist Robert Shiller, who warned of both the tech and housing bubbles, now cautions that signs of irrational exuberance among investors have only increased since the 2008–9 financial crisis. With high stock and bond prices in the United States, and rising housing prices in many countries, the post-subprime boom may well turn out to be another illustration of Shiller’s influential argument that psychologically driven volatility is an inherent characteristic of all asset markets. In other words, Irrational Exuberance is as relevant as ever.

The Subprime Solution
How Today’s Global Financial Crisis Happened, and What To Do about It
Robert J. Shiller
“Shiller is one of the world’s outstanding economic thinkers and intellectual innovators, with a record of foresight that is the envy of his profession. . . . His short, snappy and surprisingly far-reaching book on the subprime crisis is as interesting and indispensable as you would expect.”
—Clive Crook, Financial Times
2012. 224 pages. 4 line illus.

With a new preface by the author
Finance and the Good Society
Robert J. Shiller
“Shiller comes across as pragmatic as well as visionary, explaining how much financial capitalism has done for society and how much more it could do if harnessed for the common good.”
—James Pressley, Bloomberg News
“A persuasive case for a fresh view of an industry that is too glibly demonized.”
—Sebastian Mallaby, New York Times Book Review

Animal Spirits
How Human Psychology Drives the Economy, and Why It Matters for Global Capitalism
George A. Akerlof & Robert J. Shiller
“The two superstars have produced a truly innovative and bold work that attempts to show how psychological factors explain the origins of the current mess and offer clues for possible solutions. At a time when plummeting confidence is dragging down the market and the economy, the authors’ focus on the psychological aspect of economics is incredibly important.”
—Michael Mandel, BusinessWeek
2010. 264 pages. 1 table.
Pa: 978-0-691-14592-1 $16.95 | £11.95

Climate Shock
The Economic Consequences of a Hotter Planet
Gernot Wagner & Martin L. Weitzman

“Wagner and Weitzman’s Climate Shock explores two of the most alarming risks from climate change: unpredictable catastrophes and the all-too-foreseeable human tampering with the environment. They explain how the same political barriers to addressing the problem will leave nations racing to deflect the damage through geoengineering. For anyone interested in the new risk landscape of our changing climate, Climate Shock is a compelling and highly recommended read.”
—Ian Bremmer, president of the Eurasia Group

“Do you want to be challenged and stretched? Climate Shock gives broad perspectives and logical tools that will let you think through the threat of climate change on the level of the best minds on this planet.”
—Peter C. Goldmark Jr., former president of the Rockefeller Foundation and former CEO of the International Herald Tribune

Demonstrating that climate change can and should be dealt with—and what could happen if we don’t do so—Climate Shock tackles the defining environmental and public policy issue of our time.

May 2015. 216 pages. Cl: 978-0-691-16052-8 $27.95 | £19.95

The Globalization of Inequality
François Bourguignon
Translated by Thomas Scott-Railton

“This book deals with extremely topical issues related to inequality. Bourguignon is exceptionally well-qualified to provide an overview of recent trends, tease out the implications of the global-versus-national perspective on inequality, and seriously examine the factors at work as well as promising policy responses.”
—Brian Nolan, University of Oxford

“This work makes a significant contribution to the general understanding of globalization’s influence on inequality. While much is being said on the topic, this book is a rarity in being both accessible and informed.”
—Jean-Yves Duclos, Laval University

An informed and original contribution to the current debates about inequality, this book will be essential reading for anyone who is interested in the future of the world economy.

May 2015. 216 pages. Cl: 978-0-691-16052-8 $27.95 | £19.95

The Little Big Number
How GDP Came to Rule the World and What to Do about It
Dirk Philipsen

“Philipsen brilliantly exposes the skeleton hiding in the economist’s closet—the dangerously misleading talisman of GDP. He uncovers the extraordinary story of how good intentions morphed into the monstrous misconception of public progress and economic value that reigns over politics and public opinion. If society fails to heed Philipsen’s message about developing new ways to measure economic gain and loss, the sustainable future is not going to be possible.”
—William Greider, author of The Soul of Capitalism

“The Little Big Number makes the case that GDP has become counterproductive and we need better goals and measures of progress. This excellent and timely book communicates this argument in a style suitable for general audiences.”
—Robert Costanza, Australian National University

As Dirk Philipsen demonstrates, the history of GDP reveals unique opportunities to fashion smarter goals and measures. The Little Big Number explores a possible roadmap for a future that advances quality of life rather than indiscriminate growth.

June 2015. 336 pages. 10 halftones. 5 tables. Cl: 978-0-691-16652-0 $29.95 | £19.95

**The Mystery of the Invisible Hand**
A Henry Spearman Mystery
Marshall Jevons

“Jevons combines entertaining economic lessons with a crafty whodunit in his excellent fourth Henry Spearman mystery.”
—*Publishers Weekly*, (starred review)

“...The invisible hand is everywhere in Jevons’s excellent mystery. Like Freakonomics, this proves that the much-dreaded ‘econ’ can provide useful entertainment.”
—*Booklist*, starred review

Henry Spearman, the balding economics professor with a knack for solving crimes, returns in *The Mystery of the Invisible Hand*—a clever whodunit of campus intrigue, stolen art, and murder. Having just won the Nobel Prize, Spearman accepts an invitation to lecture at Monte Vista University. He arrives in the wake of a puzzling art heist with plans to teach a course on art and economics—only to be faced with the alleged suicide of womanizing artist-in-residence Tristan Wheeler. When it becomes clear that Wheeler had serious enemies and a murderer is in their midst, Henry Spearman is on the case.

2014. 352 pages. 
Cl: 978-0-691-16313-0 $24.95 | £16.95

**New Paperback**

**A Deadly Indifference**
A Henry Spearman Mystery
Marshall Jevons

“Readers will find themselves effortlessly picking up the economic principles strewn about by the authors as clues. ...The corpse, when it appears, is a show stopper.”

2014. 192 pages. 
Pa: 978-0-691-16416-8 $17.95 | £12.50

**New Paperback**

**Murder at the Margin**
A Henry Spearman Mystery
Marshall Jevons

“[Henry Spearman] utilizes the economic way of thinking literally to figure out ‘whodunit.’ If there is a more painless way to learn economic principles, scientists must have recently discovered how to implant them in ice cream.”
—John R. Haring, Jr., *Wall Street Journal*

“This is a tight little mystery that should hold the interest of any student who enjoys detective stories. ... What gives Murder at the Margin its sparkle are the shrewd observations about academic life and the authors’ ability to transform statements of economic law into deft character analysis.”
—Sarah Gallagher and George Dawson, *Journal of Economic Education*

2014. 224 pages. 
Pa: 978-0-691-16401-4 $17.95 | £12.50

**Forthcoming**

**Foragers, Farmers, and Fossil Fuels**
How Human Values Evolve
Ian Morris

Edited and with an introduction by Stephen Macedo
With commentary by Margaret Atwood, Christine M. Korsgaard, Richard Seaford & Jonathan D. Spence

“Ian Morris has thrown another curveball for social science. In this disarmingly readable book, which takes us from prehistory to the present, he offers a new theory of human culture, linking it firmly to economic fundamentals and how humans obtained their energy and resources from nature. This is bold, erudite, and provocative.”
—Daron Acemoglu, coauthor of *How Nations Fail: The Origins of Power, Prosperity, and Poverty*

“Ian Morris has emerged in recent years as one of the great big thinkers in history, archaeology, and anthropology, writing books that set people talking and thinking. ...The breadth of reading and the command of the subject are just dazzling. His major argument—that value systems adapt themselves to ambient energy structures, in the same way that an organism adapts to its niche—is fascinating.”
—Daniel Lord Smail, author of *On Deep History and the Brain*

*The University Center for Human Values Series*

April 2015. 360 pages. 2 halftones. 26 line illus. 4 maps. 
Cl: 978-0-691-16039-9 $29.95 | £19.95
Forthcoming Paperback
With a new preface by the authors
The Org
The Underlying Logic of the Office
Ray Fisman & Tim Sullivan
“The authors’ mission to help you ‘descend into better-informed cynicism’—to find the ‘least dysfunctional’ of all possible dysfunctional orgs—is the kind of literary stock that pays greater dividends.”
—Trevor Butterworth, Wall Street Journal

“Compelling…The Org aims to explain why organizations—be they private companies or government agencies—work the way they do.”
—Eduardo Porter, New York Times

In The Org, Ray Fisman and Tim Sullivan explain the tradeoffs that every organization faces, arguing that this everyday dysfunction is actually inherent to the very nature of orgs. The Org diagnoses the root causes of that malfunction, beginning with the economic logic of why organizations exist in the first place, then working its way up through the org’s structure from the lowly cubicle to the CEO’s office.

The Son Also Rises
Surnames and the History of Social Mobility
Gregory Clark
“This is the most exciting research on the ‘American Dream’ of social mobility to come along in many years. The Son Also Rises provides deep insights into not only the ability or inability of children to surpass their parents’ socioeconomic class, but also into the surprising importance of the family to generate prosperity in general.”
—William Easterly, author of The White Man’s Burden

“The Son Also Rises is a remarkable challenge to conventional wisdom about social mobility. Using highly original methods and ranging widely across world history, Clark argues that the activities of governments impact mobility much less than most of us think—and that the only sure path to success is to be born to the right parents. Everyone interested in public policy should read this book.”
—Ian Morris, author of Why the West Rules—for Now

The Princeton Economic History of the Western World
2014. 384 pages. 15 halftones. 111 line illus. 50 tables. 7 maps.

New
The Dollar Trap
How the U.S. Dollar Tightened Its Grip on Global Finance
Eswar S. Prasad
“As Eswar Prasad points out, there is something paradoxical about a world where the dollar strengthens with the U.S. financial crisis, capital flows from poor countries to rich ones, and more sophisticated finance often leads to greater risk. Prasad’s book unpacks these paradoxes in a provocative and challenging way. It deserves the attention of all those who care about the future of the dollar and the international monetary system.”
—Lawrence H. Summers, Harvard University

“Combining history, modern analysis, and practical examples, this elegant book counters conventional wisdom and brilliantly documents why it’s so hard to escape the dollar trap. Prasad describes an increasingly unstable equilibrium that begs for better international policy coordination and he sets out fascinating and important alternatives that will particularly interest policymakers and investors. A must-read for all concerned about the dollar’s global role.”
—Mohamed A. El-Erian, author of When Markets Collide and CEO of PIMCO

2014. 432 pages. 8 halftones. 17 line illus. 6 tables.
Cl: 978-0-691-16112-9 $35.00 | £24.95

**Fragile by Design**
The Political Origins of Banking Crises and Scarce Credit
Charles W. Calomiris & Stephen H. Haber

“Business economists Calomiris and Haber explain how imperfectly politics and commercial banks intersect, and the consequences for the rest of us. . . . This learned inquiry deserves ample attention from scholars, regulators, and bankers themselves.”
—Publishers Weekly

“Brilliant. . . . [I]f you are looking for a rich history of banking over the last couple of centuries and the role played by politics in that evolution, there is no better study. It deserves to become a classic.”
—Liaquat Ahamed, New York Times Book Review

**GDP**
A Brief but Affectionate History
Diane Coyle

 “[A] little charmer of a book. . . . GDP: A Brief but Affectionate History is just what the title promises. . . . Cowperthwaite himself would nod in agreement over Ms. Coyle’s informed discussion of what the GDP misses and how it misfires. . . . Ms. Coyle—a graceful and witty writer, by the way—recounts familiar problems and adds some new ones. . . . [E]xcellent.”
—James Grant, Wall Street Journal

“Diane Coyle’s book is as good a simple guide as we are likely to see.”
—Samuel Brittan, Financial Times

**The Economics of Enough**
How to Run the Economy as If the Future Matters
Diane Coyle

“Coyle adds a knowledgeable and earnest voice to the discussion about how to face these global challenges. . . . [A]n important contribution to the debate on the nature of global capitalism.”
—Nancy F. Koehn, New York Times

**The Butterfly Defect**
How Globalization Creates Systemic Risks, and What to Do about It
Ian Goldin & Mike Mariathasan

“A vital and timely book, The Butterfly Defect is the first to show why systemic risk threatens us all and how it can be managed. It is a must-read for anyone concerned about our rapidly integrating peoples and businesses, and the future of our hyperconnected world.”
—Pascal Lamy, former director-general of the WTO

**Exceptional People**
How Migration Shaped Our World and Will Define Our Future
Ian Goldin, Geoffrey Cameron & Meera Balarajan

“This is a book of bold ambitions ably fulfilled. . . . [T]he authors give a rigorous but readable guide to the costs and benefits of modern migration.”
—Economist

**Complexity and the Art of Public Policy**
Solving Society’s Problems from the Bottom Up
David Colander & Roland Kupers

“A much-needed, fresh view of policy. It is based neither on free market ideology nor on heavy government control, but on seeing the economy as an always evolving complex system that can be guided toward desirable outcomes. An important book that will change how policies are made.”
—W. Brian Arthur, Santa Fe Institute

“Complexity and the Art of Public Policy helps readers understand how politics and business are part of a large sophisticated social system and how the critical issues and transitions of this system can be driven successfully.”
—Dick Benschop, president-director of Shell Netherlands and former deputy minister of foreign affairs for the Netherlands

**The Federal Reserve and the Financial Crisis**
Ben S. Bernanke

“It’s the sort of primary-source book that investors will scrutinize, politicians will seize on, pundits will plunder and generations of scholars will analyze.”
—Alan Wallace, Pittsburgh Tribune-Review

“In 2012, Ben Bernanke, chairman of the US Federal Reserve, gave a series of lectures about the Federal Reserve and the 2008 financial crisis, as part of a course at George Washington University on the Fed’s role in the economy. In this unusual event, Bernanke shed new light on the central bank’s crucial actions during the worst financial crisis since the Great Depression. Taken directly from these historic talks, The Federal Reserve and the Financial Crisis offers insight into the guiding principles behind the Fed’s activities and the lessons to be learned from its handling of recent economic challenges.”

The Great Escape
Health, Wealth, and the Origins of Inequality
Angus Deaton

“If you want to learn about why human welfare overall has gone up so much over time, you should read The Great Escape.”
—Bill Gates

“The world becoming a fairer as well as a richer place? Few economists are better equipped to answer this question than Angus Deaton… [T]he theme requires a big canvas and bold brushwork, and Mr. Deaton capably offers both.”
—Economist

In The Great Escape, Angus Deaton—one of the foremost experts on economic development and on poverty—tells the remarkable story of how, starting 250 years ago, some parts of the world began to experience sustained progress, opening up gaps and setting the stage for today’s hugely unequal world. Deaton takes an in-depth look at the historical and ongoing patterns behind the health and wealth of nations, and he addresses what needs to be done to help those left behind.

Human Capitalism
How Economic Growth Has Made Us Smarter—and More Unequal
Brink Lindsey
“Mr. Lindsey, formerly with the Cato Institute, is one of the most engaging libertarian writers. Here he seeks to address a much-talked about problem: While many Americans are becoming wealthier by joining the ranks of ‘managers, professionals and entrepreneurs,’ and the working class is not shrinking, those who remain in the dwindling middle find it harder to break into the so-called knowledge economy…[I]t takes a special kind of talent to write about public policies like these in a way that doesn’t put you to sleep, and he has that talent.”
—Barton Swaim, Wall Street Journal
2013. 144 pages.
Cl: 978-0-691-15732-0 $14.95 | £10.95

An Uncertain Glory
India and its Contradictions
Jean Drèze & Amartya Sen
“Sen and Drèze are right to draw attention to the limits of India’s success and how much remains to be done. They are exemplary scholars, and everything they say is worth careful study.”
—Clive Crook, Bloomberg News
“An urgent, passionate, political work that makes the case that India cannot move forward without investing significantly—as every other major industrialized country has already done—in public services.”
—Jyoti Thottam, New York Times Book Review
An Uncertain Glory presents a powerful analysis not only of India’s deprivations and inequalities, but also of the restraints on addressing them, and argues for the possibility of change through democratic practice.
April 2015. 448 pages. 4 line illus. 40 tables.

The Battle of Bretton Woods
John Maynard Keynes, Harry Dexter White, and the Making of a New World Order
Benn Steil
“The Battle of Bretton Woods should become the gold standard on its topic. The details are addictive.”
—Fred Andrews, New York Times
“An excellent and revealing account.”
When turmoil strikes world monetary and financial markets, leaders invariably call for “a new Bretton Woods” to prevent catastrophic economic disorder and defuse political conflict. The name of the remote New Hampshire town where representatives of forty-four nations gathered in July 1944, in the midst of the century’s second great war, has become shorthand for enlightened globalization. The actual story surrounding the historic Bretton Woods accords, however, is full of startling drama, intrigue, and rivalry, which are vividly brought to life in Benn Steil’s epic account.

One of Strategy & Business's Best Business Books for 2004
Shortlisted for the 2005 British Academy Book Prize

Revised Edition
With a new foreword by Daniel C. Dennett

**The Company of Strangers**
A Natural History of Economic Life

Paul Seabright

“[A] clear, thought-provoking, and elegant book.”
—Howard Davies, Times Higher Education

2010. 400 pages.
Pa: 978-0-691-14646-1 $25.95 | £17.95
The Theory of Corporate Finance
Jean Tirole

“A magnificent new book. . . . This is far more than the mere textbook it purports to be; it has a plausible claim to be the first truly comprehensive overview of corporate finance by an economist.”
—Economist

“Impeccably systematized. . . . Tirole’s book will have a prominent place in my library, and I am sure that I shall have plenty of occasions to refer to its authority in the future. It fully deserves a ‘buy’ rating.”
—Rudi Bogni, Times Higher Education Supplement

Here, one of the world’s leading economists offers a lucid, unified, and comprehensive introduction to modern corporate finance theory. Jean Tirole builds his landmark book around a single model, using an incentive or contract theory approach. Filling a major gap in the field, The Theory of Corporate Finance is an indispensable resource for graduate and advanced undergraduate students as well as researchers of corporate finance, industrial organization, political economy, development, and macroeconomics.

2006. 656 pages. 138 line illus. 25 tables. Cl: 978-0-691-12556-5 $95.00 | £65.00

Balancing the Banks
Global Lessons from the Financial Crisis
Mathias Dewatripont, Jean-Charles Rochet & Jean Tirole
Translated by Keith Tribe

“This compact but powerful book by three internationally recognized European economists is well worth reading. The authors offer a thoughtful review of the current global financial crisis and a number of considered recommendations for ameliorating the next and inevitable one.”
—Choice

“Balancing the Banks, by three French economists, focuses on what went wrong with financial regulation and how it can be strengthened. It offers an excellent appreciation of the intrinsic dilemmas involved in regulating financial institutions, along with an explanation of why regulation is necessary, and addresses, among other topics, how to deal with distressed banks. The book provides a useful non-American view of the financial system, with lessons from practices in European countries.”
—Foreign Affairs

Offering a global perspective, Balancing the Banks should be read by anyone concerned with solving the current crisis and preventing another such calamity in the future.

2010. 152 pages. 1 table. Cl: 978-0-691-14523-5 $32.95 | £22.95

Financial Crises, Liquidity and the International Monetary System
Jean Tirole

“In this remarkably ambitious and insightful book, Jean Tirole tackles the core issues in the economics of international lending with his usual superb clarity of thought. This book is essential reading to anyone interested in understanding the economics behind the recent drive to improve the international financial architecture.”
—Ken Rogoff, Chief Economist and Director of Research, International Monetary Fund

“This book presents one of the first comprehensive attempts to bring rigorous theoretical foundations into the debate on the international financial architecture. The analysis is simple, elegant, and yields insights that are often unconventional and always thought-provoking. This is an indispensable reference for all economists interested in the current debates on the international financial architecture.”
—Olivier Jeanne, International Monetary Fund

Based on the Paolo Baffi Lecture the author delivered at the Bank of Italy, this refreshingly accessible book is teeming with rich insights that researchers, policymakers, and students at all levels will find indispensable.

New

Mastering ‘Metrics
The Path from Cause to Effect
Joshua D. Angrist &
Jörn-Steffen Pischke

“Written by true masters of ‘metrics,’ this book is perfect for those who wish to study this important subject. Using real-world examples and only elementary statistics, Angrist and Pischke convey the central methods of causal inference with clarity and wit.”
—Hal Varian, chief economist at Google

2015. 304 pages. 4 halftones. 36 line illus. 25 tables.
Pa: 978-0-691-15284-4 $35.00 | £24.95
Cl: 978-0-691-15283-7 $79.50 | £55.00

New

High-Frequency Financial Econometrics
Yacine Aït-Sahalia &
Jean Jacod

“An important and timely work by two of the leading experts in high-frequency data. Aït-Sahalia and Jacod take readers to the very forefront of this rapidly evolving area. They cover both the practical side of financial data and the mathematical theory of stochastic processes, and show how to connect the two. High-Frequency Financial Econometrics is a must-read for academics and practitioners alike.”
—Per Mykland, University of Chicago

2014. 224 pages. 35 line illus. 24 tables.
Pa: 978-0-691-16143-3 $55.00 | £37.95
Cl: 978-0-691-16142-6 $85.00 | £55.00
THE GORMAN LECTURES IN ECONOMICS
Richard Blundell, series editor

Recursive Models of Dynamic Linear Economies
Lars Peter Hansen & Thomas J. Sargent
“This is the ideal book for those who want to study, understand, and work with linear-quadratic dynamic economies. Providing a thorough, authoritative, yet accessible treatment, it contains a superb analysis of the connections between various linear-quadratic dynamic programming problems, the general equilibrium properties of these economies, the type of aggregation applicable to them, and the time-series implications for quantities and prices. A great book by two giants of the field.”
—Fernando Alvarez, University of Chicago
2014. 240 pages. 20 line illus. Cl: 978-0-691-04277-0 $45.00 | £30.95

Lectures on Public Economics
Anthony B. Atkinson & Joseph E. Stiglitz
“Lectures on Public Economics remains the most comprehensive and deepest textbook on the subject. The discussions presented here offer very insightful views on the limits of tax theory analysis that cannot be found in pure research articles, and help guide students who want to carry out research of their own.”
—Emmanuel Saez, University of California, Berkeley
April 2015. 568 pages. 73 line illus. 22 tables. Cl: 978-0-691-16641-4 $49.95 | £34.95

Microeconomic Foundations I
Choice and Competitive Markets
David M. Kreps
“Kreps sets out the theories of individual choice and competitive markets precisely yet readable, even entertainingly, while anticipating and carefully answering many of the questions of interpretation and motivation that even the best texts seldom fully answer. It is difficult to imagine a student, or scholar, who would not gain from this masterful treatment.”
—Vincent P. Crawford, University of Oxford
2012. 584 pages. 46 line illus. 22 tables. Pa: 978-0-691-15583-8 $39.50 | £27.95

Lecture Notes in Microeconomic Theory
The Economic Agent
Ariel Rubinstein
Praise for the first edition:
“This book will be a valuable addition to the small collection of high-level texts in microeconomics. It is distinguished by Rubinstein’s characteristic skill in choice of topics and exposition, and by his unique perspective on economic theory and game theory. At the same time, it will be accessible to a wide range of students.”
—Vincent Crawford, University of California, San Diego
2012. 168 pages. 21 line illus. 3 tables. Pa: 978-0-691-15413-8 $35.00 | £24.95

The Handbook of Organizational Economics
Edited by Robert Gibbons & John Roberts
“The Handbook of Organizational Economics is essential reading for all those interested in this field at the confluence of economics and management. . . . We can safely bet that this wonderful handbook will encourage new research and doctoral courses.”
—Jean Tirole, Toulouse School of Economics
2013. 1248 pages. 150 tables. 150 line illus. Cl: 978-0-691-13279-2 $99.50 | £69.95

New Paperback
With a new afterword by the author

Jane Austen, Game Theorist
Michael Suk-Young Chwe

“Chwe argues that Austen isn’t merely fodder for game-theoretical analysis, but an unacknowledged founder of the discipline itself: a kind of Empire-waisted version of the mathematician and cold war thinker John von Neumann, ruthlessly breaking down the stratagems of 18th-century social warfare.”
—Jennifer Schuessler, New York Times

2014. 296 pages. 5 line illus. 9 tables.
Pa: 978-0-691-16244-7 $22.95 | £15.95
Cl: 978-0-691-15576-0 $35.00 | £24.95

With a new afterword by the author

Rational Ritual
Culture, Coordination, and Common Knowledge
Michael Suk-Young Chwe

“A welcome addition….Rational Ritual…can be understood and enjoyed by almost anyone interested in human interaction.”
—Vincent P. Crawford, Journal of Economic Literature

2013. 152 pages. 31 line illus. 3 tables.
Pa: 978-0-691-15828-0 $22.95 | £15.95

New

Beautiful Game Theory
How Soccer Can Help Economics
Ignacio Palacios-Huerta

“This stimulating book shows that an understanding of economic ideas gives deep insights into soccer play, and that soccer provides important evidence to test various theories of economic behavior, such as efficient markets and social influences on behavior. You do not have to be a soccer fan to learn from and enjoy this engaging book.”
—Gary S. Becker, University of Chicago, Nobel Laureate in Economics

2014. 224 pages. 2 halftones. 35 line illus. 30 tables.
Ci: 978-0-691-14402-3 $35.00 | £24.95

Game Theory
An Introduction
Steven Tadelis TEXTBOOK

“It’s hard to write a game theory textbook that strikes a good balance between precision and accessibility. But Steve Tadelis has accomplished this juggling act, with style and humor besides.”
—Eric S. Maskin, Nobel Laureate in Economics, Harvard University

2013. 416 pages. 87 line illus. 1 table.
Ci: 978-0-691-12908-2 $50.00 | £34.95

Second Edition

Game Theory Evolving
A Problem-Centered Introduction to Modeling Strategic Interaction
Herbert Gintis TEXTBOOK

Praise for Princeton’s previous edition:

“Gintis has wholeheartedly embraced the evolutionary approach to games. . . . The author is an accomplished economist raised in the classical mold, and his background shows in many aspects of the book. . . . [He] has important things to say.”
—Karl Sigmund, Science

2009. 408 pages. 79 line illus. 2 tables.
Pa: 978-0-691-14051-3 $49.95 | £34.95

Read newsworthy and lively commentary on our blog at blog.press.princeton.edu
**Forthcoming**

**Second Edition**

**Monetary Policy, Inflation, and the Business Cycle**

An Introduction to the New Keynesian Framework and Its Applications

Jordi Galí

Praise for the previous edition:

“Jordi Galí provides an authoritative overview of the research that revolutionized monetary economics during the past decade, by embedding sticky prices in a coherent dynamic general equilibrium framework—thus providing a novel and much clearer positive and normative analysis of monetary policy. The presentation is elegant and intuitive, yet rigorous. The book will be a standard reference for graduate students, researchers, and policymakers. It is also highly recommended as a textbook for money/macro courses. Numerous useful exercises are provided.”

—Robert Kollmann, European Center for Advanced Research in Economics and Statistics, Free University of Brussels

May 2015. 256 pages. 14 line illus. 4 tables.

Cl: 978-0-691-16478-6 $69.50 | £48.95

**Forthcoming Paperback**

**Fourth Edition**

**Free Trade under Fire**

Douglas A. Irwin

“A wealth of reporting, both of trade-theory debates and of recent political battles in America over trade, is elegantly squeezed into the book… If [Free Trade under Fire does] not change trade sceptics’ minds, it is hard to think what else would.”

—Economist

July 2015. 328 pages. 30 line illus. 12 tables.

Pa: 978-0-691-16625-4 $27.95 | £19.95

**Rethinking Expectations**

The Way Forward for Macroeconomics

Edited by Roman Frydman & Edmund S. Phelps

 “[A] must-read for anyone interested in modern economic thought and its implications for policy.”

—Dale Mortensen, Nobel Laureate in Economics

2013. 440 pages. 48 line illus. 18 tables.

Cl: 978-0-691-15523-4 $49.50 | £34.95

One of Financial Times’ Best Books of 2011 Finalist, 2011 Paul A. Samuelson Award, TIAA-CREF

**Beyond Mechanical Markets**

Asset Price Swings, Risk, and the Role of the State

Roman Frydman & Michael D. Goldberg

 “[A] groundbreaking look at how to tame asset booms and busts.”

—James Pressley, Bloomberg News

2011. 304 pages. 25 line illus. 4 tables.

Cl: 978-0-691-14577-8 $35.00 | £24.95

**Sovereign Wealth Funds**

Legitimacy, Governance, and Global Power

Gordon L. Clark, Adam D. Dixon & Ashby H. B. Monk

“This book is an outstanding scholarly contribution to understanding the emerging world of the twenty-first century.”

—Allen J. Scott, University of California, Los Angeles

2013. 240 pages. 11 line illus. 7 tables.

Cl: 978-0-691-14229-6 $39.50 | £27.95

**Remembering Inflation**

Brigitte Granville

 “[A] highly informative, well-written volume.”

—Choice

2013. 296 pages. 29 line illus. 23 tables.

New

**Why Gender Matters in Economics**

Mukesh Eswaran

“This thoughtful, energetic, creative, and engaging book does a terrific job reviewing and explaining some of the most interesting economic research on gender in recent years. It fills an important gap in the gender and economics literature.”

—Nancy Folbre, professor emeritus of economics, University of Massachusetts, Amherst

2014. 408 pages. 39 line illus. 12 tables.

Cl: 978-0-691-12173-4 $45.00 | £30.95

New Paperback

With a new preface by the author

**The Quest for Prosperity**

How Developing Economies Can Take Off

Justin Yifu Lin

“As an accessible summary of how the World Bank . . . thinks about development these days, The Quest for Prosperity is hard to beat. It will quickly find its way on to the course reading lists for development economics master’s programmes.”

—Howard Davies, Times Higher Education

2014. 360 pages. 2 line illus.

Pa: 978-0-691-16356-7 $19.95 | £13.95

Cl: 978-0-691-15589-0 $27.95 | £19.95

**Public Capital, Growth and Welfare**

Analytical Foundations for Public Policy

Pierre-Richard Agénor

“An ideal reference for those who study, teach, and work in the fields of economic growth, development, and poverty alleviation.”

—Costas Azariadis, Washington University in St. Louis

2013. 264 pages. 20 line illus.

Cl: 978-0-691-15580-7 $39.50 | £27.95

**The Long Divergence**

How Islamic Law Held Back the Middle East

Timur Kuran

“Professor Kuran’s book offers the best explanation yet for why the Middle East has lagged.”

—Nicholas D. Kristof, New York Times

2012. 424 pages. 12 halftones. 8 line illus. 10 tables. 2 maps.

Pa: 978-0-691-15641-5 $24.95 | £16.95

Cl: 978-0-691-14756-7 $29.95 | £19.95

**Running Randomized Evaluations**

A Practical Guide

Rachel Glennerster & Kudzai Takavashara

“Randomized impact evaluations, pioneered by Rachel Glennerster and her colleagues, have emerged as a powerful new tool in the fight against poverty. This book gives us a critical guide for how to actually do them. It is required reading for students, professionals, and researchers committed to using evidence to guide policy.”

—Dean Karlan, coauthor of More Than Good Intentions

2013. 480 pages. 50 line illus. 25 tables.

Pa: 978-0-691-15927-0 $35.00 | £24.95

Cl: 978-0-691-15924-9 $75.00 | £52.00

**Pricing the Planet’s Future**

The Economics of Discounting in an Uncertain World

Christian Gollier

“Pricing the Planet’s Future explores the history and future of the modern economic theory of discounting and its consequences for sustainable development. Written for professional economists and graduate students, this book is one of the best on dynamic decision making.”

—Jason Shogren, University of Wyoming

2012. 248 pages. 27 line illus. 10 tables.

Cl: 978-0-691-14876-2 $35.00 | £24.95
The Price of Rights
Regulating International Labor Migration
Martin Ruhs

“To what extent should countries encourage immigration? What rights should be conferred on immigrants, especially temporary ones? Ruhs emphasizes the uncomfortable tradeoffs built into every answer to those questions.”
—Richard Cooper, Foreign Affairs

“This is a carefully researched book that starkly shows the trade-offs involved between extending more rights to migrants, versus extending more opportunities to enable people to take advantage of the large gains in income possible through international migration. A first-rate contribution to current policy and academic debates.”
—David McKenzie, lead economist in the Development Research Group at the World Bank

The Economics of Imperfect Labor Markets
Tito Boeri & Jan van Ours

Praise for the first edition:
“Understanding the role of labor market institutions is a difficult but central task. Good institutions can alleviate the adverse effects of the many imperfections that characterize labor markets. But, unfortunately, bad institutions can, and often do, make things worse. By relying on simple theory and an accumulating body of careful evidence, this book helps us think straight. An essential read for anybody interested in going beyond clichés, and understanding what institutions do and should do.”
—Olivier Blanchard, Massachusetts Institute of Technology

From Neighborhoods to Nations
The Economics of Social Interactions
Yannis M. Ioannides

“Ioannides has accomplished a remarkable survey and synthesis of the scattered literature on urbanization as a response to nonmarket factors…. This is an important synthesis of material to which the author has been a major contributor.”
—Kenneth J. Arrow, Stanford University, Nobel Laureate in Economics

Lectures on Behavioral Macroeconomics
Paul De Grauwe

“De Grauwe voices the concerns of many macroeconomists regarding the empirical plausibility of the rational expectations assumption. He shows how a parsimonious, boundedly rational approach can improve the fit of sticky price macro models to the data in a number of important dimensions.”
—John Duffy, University of Pittsburgh

In mainstream economics, and particularly in New Keynesian macroeconomics, the booms and busts that characterize capitalism arise because of large external shocks. The combination of these shocks and the slow adjustments of wages and prices by rational agents leads to cyclical movements. In this book, Paul De Grauwe argues for a different macroeconomics model—one that works with an internal explanation of the business cycle and factors in agents’ limited cognitive abilities. By creating a behavioral model that is not dependent on the prevailing concept of rationality, De Grauwe is better able to explain the fluctuations of economic activity that are an endemic feature of market economies. This new approach illustrates a richer macroeconomic dynamic that provides for a better understanding of fluctuations in output and inflation.

Forthcoming Paperback

**Institutions, Innovation, and Industrialization**

Essays in Economic History and Development

Edited by Avner Greif, Lynne Kiesling & John V. C. Nye

“The origins of modern economic growth have been a central preoccupation of economic historians since, well, there has been modern economic growth. As this volume edited by Greif, Kiesling, and Nye makes clear, that preoccupation is very much alive, and scholarship on the subject is alive and well. For readers interested in understanding the state of the art, there is no better place to start.”

—Barry Eichengreen, University of California, Berkeley

February 2015. 440 pages. 27 line illus. 41 tables. 16 maps.

**The Making of the Ancient Greek Economy**

Institutions, Markets, and Growth in the City-States

Alain Bresson

“This magisterial book provides an entirely new way of thinking about the ancient Greek economy. Alain Bresson is one of the world’s leading authorities on the subject and has contributed mightily to reconfiguring the debate about it. Combining new theoretical approaches, a deep knowledge of ancient sources, and a remarkably wide reading in the economic history of other periods, he provides a comprehensive introduction full of detail, evidence, and argument. And he avoids jargon and insider talk, writing in a direct and clear prose that invites one in. This groundbreaking book will be read for many years to come.”

—Gary Reger, Trinity College

October 2015. 544 pages. Cl: 978-0-691-14470-2 $39.50 | £27.95

---

**Finding Equilibrium**

Arrow, Debreu, McKenzie and the Problem of Scientific Credit

Till Düppe & E. Roy Weintraub

“Düppe and Weintraub have written a powerful book that is both a marvelous introduction to modern economics for all who want to know what mathematical economists are up to, and a deep, textured account of the paths Arrow, Debreu, and McKenzie followed on their way to general equilibrium theory. A thoughtful mix of biography, intellectual history, and mathematical expertise, Finding Equilibrium invites us into the moments that proved decisive for economics as it exists today.”

—Peter Galison, author of Einstein’s Clocks, Poincaré’s Maps

2014. 304 pages. 11 halftones. Cl: 978-0-691-15664-4 $39.50 | £27.95

---

**Philanthropy in America**

A History

Olivier Zunz

“A splendid book about philanthropy in America.”

—Pablo Eisenberg, The Nation

2013. 288 pages. 28 halftones. Cl: 978-0-691-15911-9 $29.95 | £19.95
Forthcoming

Why Did Europe Conquer the World?
Philip T. Hoffman
“Beginning with the Spanish and Portuguese in the late fifteenth century, technological military superiority appears to have been the proximate cause of Europe’s ever-expanding military dominance for the next five centuries. Where did this technological superiority come from? The answer provided in thisconvincing and tightly argued book is interesting and as definitive as such answers get.”
—Stergios Skaperdas, University of California, Irvine

Debunking traditional arguments, Why Did Europe Conquer the World? reveals the startling reasons behind Europe’s historic global supremacy.

The Chosen Few
How Education Shaped Jewish History, 70–1492
Maristella Botticini & Zvi Eckstein
“The astonishing theory presented here has great implications for both the Jewish community and the broader world today.”
—Steven Weiss, Slate

“If you’ve ever wondered how the Chosen People survived the vagaries of history, reading The Chosen Few will give you answers you cannot find anywhere else.”
—Huffington Post

2014. 344 pages. 4 line illus. 29 tables. 11 maps.
Pa: 978-0-691-16351-2 $19.95 | £13.95

New

Lending to the Borrower from Hell
Debt, Taxes, and Default in the Age of Philip II
Mauricio Drelichman & Hans-Joachim Voth
“A thoroughly enjoyable economic history book with great relevance for the present debate on sovereign borrowing.”
—Diane Coyle, Enlightened Economist

“A sovereign debt is a paradox: why lend to a ruler who can summarily change the terms and conditions under which he repays? This is a deep question on which only history, ultimately, can shed light. Drelichman and Voth do the history right in this detailed, rigorous study of the notorious serial defaulter Philip II.”
—Barry Eichengreen, University of California, Berkeley

A fascinating story of finance and empire, Lending to the Borrower from Hell offers an intelligent model for keeping economies safe in times of sovereign debt crises and defaults.

2014. 328 pages. 4 halftones. 32 line illus. 29 tables.
Cl: 978-0-691-15149-6 $35.00 | £24.95
New

**Power to the People**
Energy in Europe over the Last Five Centuries
Astrid Kander, Paolo Malanima & Paul Warde

“Employing economic theory and growth accounting to illuminate the linkages between energy use and economic activity and supporting their argument with extensive quantitative evidence, the authors make a compelling case that modern economic growth would have been impossible without the increased energy intensity made possible by exploitation of fossil fuels. This work provides valuable historical perspectives on pressing contemporary challenges.”

—Choice

“Power to the People is a work of impressive scholarship, offering extensive and detailed quantitative information—much of which is new or not widely available—with readable explanations of the technical innovations that drove economic performance. It shows how energy use has long been central to Europe’s economic growth, but that its role has been neither simple nor uniform.”

—William M. Cavert, University of Cambridge

2014. 472 pages. 15 halftones. 87 line illus. 89 tables.
Cl: 978-0-691-14362-0 $39.50 | £27.95

---

**Cities of Commerce**
The Institutional Foundations of International Trade in the Low Countries, 1250–1650
Oscar Gelderblom

“This richly detailed book offers an important and critical reexamination of the commercial revolution in Northern Europe. Combining key insights from law and institutional economics with a sharp historical narrative, Gelderblom produces a striking new understanding of how formal and informal institutions propelled the European economy forward.”

—Jean-Laurent Rosenthal, California Institute of Technology

“Illuminating. This book advances the argument that intercity competition over long-distance trade in premodern Europe took the form of legal changes favorable to commerce. This important argument provides new insight into European history and the institutional foundations of the rise of the West. Gelderblom is a first-rate scholar.”

—Avner Greif, Stanford University

2013. 312 pages. 13 line illus. 10 tables.
Cl: 978-0-691-14288-3 $35.00 | £24.95

---

**The Roman Market Economy**
Peter Temin

“Peter Temin’s fascinating book deploys the techniques of economic analysis to understand the nature of Roman trade, markets, and transactions, and definitively challenges the view of the Roman Empire as a ‘primitive’ economy.”

—Alan K. Bowman, University of Oxford

2012. 320 pages. 16 line illus. 16 tables.
Cl: 978-0-691-14768-0 $35.00 | £24.95

---

**Power over Peoples**
Technology, Environments, and Western Imperialism, 1400 to the Present
Daniel R. Headrick

“Headrick destroys the simplistic notion that technological advances alone can explain the historic limits of Western global hegemony.”

—Choice

2012. 416 pages. 20 halftones. 4 maps.
Pa: 978-0-691-15432-9 $25.95 | £17.95

Efficiently Inefficient
How Smart Money Invests and Market Prices Are Determined
Lasse Heje Pedersen

“This accessible book explains hedge fund strategies and how to design, construct, evaluate, implement, and risk manage them. The section on securities lending and borrowing is interesting and novel, and Pedersen's discussion of macro and central bank strategies is one of the best I have seen in any book on hedge funds. His account of portfolio construction is superior.”
—Robert Kosowski, Imperial College Business School

“Efficiently Inefficient bridges academic finance and the practice of finance. Students will appreciate the insights of top investment managers and the sections on transactions costs and liquidity are especially valuable. I will use the book in my graduate course on investment and I highly recommend it to all those working in the investment management industry.”

Efficiently Inefficient effectively demonstrates how financial markets really work.

New

Playing at Acquisitions
Behavioral Option Games
Han Smit & Thras Moraitis

“This book brings together the best insights from strategy, corporate finance, and psychology to explore in a real, fine-grained, and practical way how to derive winning acquisition strategies using both real options and game theory to optimally time and leverage investments. It is a must-read for serious practitioners and those aiming to get into the game.”
—Dan Lovallo, University of California, Berkeley

“Smit and Moraitis are the first to incorporate behavioral biases into a book for M&A practitioners. Accessible yet theoretically rigorous, Playing at Acquisitions subdivides complex strategies into manageable building blocks and illustrates concepts through an in-depth study of a successful multistage acquisitions strategy. Highly recommended for corporate strategists and M&A professionals.”
—Carliss Y. Baldwin, Harvard Business School

2015. 216 pages. 1 halftone. 26 line illus. 9 tables.

Revised Edition
Quantitative Risk Management
Concepts, Techniques and Tools
Alexander J. McNeil, Rüdiger Frey & Paul Embrechts

Praise for the previous edition:

“Quantitative Risk Management is highly recommended for financial regulators. The statistical and mathematical tools facilitate a better understanding of the strengths and weaknesses of a useful range of advanced risk-management concepts and models, while the focus on aggregate risk enhances the publication's value to banking and insurance supervisors.”
—Hans Blommestein, Financial Regulator

New Paperback
Winner of the 2011 Max Weber Book Award, Organizations, Occupations, and Work Section, American Sociological Association

The Entrepreneurial Group
Social Identities, Relations, and Collective Action
Martin Ruef

“The Entrepreneurial Group is an important book-length sociological treatment of entrepreneurship that challenges conventional assumptions about the nature of entrepreneurship, questions the appropriate unit of analysis with which it should be studied, and redefines the outcomes that ought to be of interest. . . . It is a worthy accomplishment that is both thought-provoking and engaging.”
—M. Diane Burton, Administrative Science Quarterly

“Ruef explodes the myth of the lone entrepreneur, showing how those who start businesses assemble productive groups around themselves. He explains in a brilliant, original way how groups evolve into viable organizations and why some succeed while others fail. This is a must-read for anyone who wants to understand how entrepreneurs build businesses and why growing an enterprise is a team sport.”
—Philip Anderson, INSEAD, director of the Rudolf and Valeria Maag International Centre for Entrepreneurship

Solomon’s Knot
How Law Can End the Poverty of Nations
Robert D. Cooter & Hans-Bernd Schäfer

“Solomon’s Knot unites law and economics in cogently explaining how effective legal institutions support innovation—the engine of economic growth in every society.”
—Curtis Milhaupt, Columbia University

“Readers interested in understanding the law and economics approach would do well to start with this well-written volume, which develops a model of the legal institutions needed for innovation.”
—Choice

New

Currency Politics
The Political Economy of Exchange Rate Policy
Jeffry A. Frieden
“This is international political economy as it should be. Frieden presents a sturdy framework that shows why various interest groups ought to favor strong or weak currencies, and stable or flexible exchange rates. His book’s convincing applications of this framework range from sectional politics in nineteenth-century America, to today’s eurozone divisions, to the vicissitudes of emerging markets.”
—Jeffrey Frankel, Harvard University

“In Currency Politics, Frieden not only draws together beautifully the strands of his previous work, but he advances a new and entirely persuasive explanation of the euro project as an essential bulwark against competitive devaluations. Above all, he argues convincingly for the centrality of exchange rate policy to domestic politics, international relations, and macroeconomics in open economies.”
—Ronald Rogowski, University of California, Los Angeles

2015. 320 pages. 13 line illus. 27 tables.
Cl: 978-0-691-16415-1 $39.95 | £27.95

American Insecurity
Why Our Economic Fears Lead to Political Inaction
Adam Seth Levine
“Developing a groundbreaking theory about the difficulties of collective action in American politics, this book considers how interest groups, public political participation, and the responsiveness of elected officials play a role in the distinct lack of policies aimed at ameliorating the effects of economic insecurity in the United States. One of the most important books in decades.”
—James N. Druckman, Northwestern University

February 2015. 328 pages. 22 line illus. 30 tables.
Cl: 978-0-691-16296-6 $29.95 | £19.95

**Caught**
The Prison State and the Lockdown of American Politics  
Marie Gottschalk

“In this pathbreaking and meticulous book, Gottschalk traces the rapid development of highly targeted mass imprisonment since the early 1970s. Drawing links between the prison buildup and a range of policies that have increased state control and surveillance beyond the prison, Caught sheds new light on the relationship between criminal justice and the ideological shape, material conditions, and institutional structure of the broader political economy.”

—Nicola Lacey, London School of Economics  
2015. 496 pages. 8 line illus.  
Cl: 978-0-691-16405-2 $35.00 | £24.95

**The Oil Curse**
How Petroleum Wealth Shapes the Development of Nations  
Michael L. Ross

“The Oil Curse leads us into the hidden world of the oil business. It presents some surprising discoveries and provides important information in a very accessible way. It is the most up-to-date book on a timely and important topic.”

—Lisa Kaaki, Arab News

2013. 312 pages. 46 line illus. 35 tables.  
Pa: 978-0-691-15963-8 $22.95 | £15.95

**Power Lines**
Phoenix and the Making of the Modern Southwest  
Andrew Needham

“Rarely does a work of history unite so many seemingly disconnected fields of inquiry in such new and exciting ways. Masterfully interweaving urban, Native American, and environmental history, Power Lines is a sobering assessment of Phoenix’s expansive postwar development. The legacies of the region’s coal-powered history continue to shape contemporary politics, spaces, and our shared environmental future, making Power Lines as timely as it is insightful.”

—Ned Blackhawk, Yale University

New
The Social Life of Money
Nigel Dodd

“An exhaustive analysis of money as a complex social process—not a thing—that will appeal to scholars in many fields.”
—Kirkus Reviews

“Dodd presents a wide-ranging and sophisticated review and integration of the academic work related to alternative conceptions of modern money. . . . [T]his is a richly rewarding book. Those of us accustomed to thinking of money as something we exchange for beer and pizza will never again have such a simple story.”
—Pietra Rivoli, Financial Times

Questions about the nature of money have gained a new urgency in the aftermath of the global financial crisis. Even as many people have less of it, there are more forms and systems of money, from local currencies and social lending to mobile money and Bitcoin. Yet our understanding of what money is—and what it might be—hasn’t kept pace. In The Social Life of Money, Nigel Dodd, one of today’s leading sociologists of money, reformulates the theory of the subject for a postcrisis world in which new kinds of money are proliferating.

Pedigree
How Elite Students Get Elite Jobs
Lauren A. Rivera

“Rivera identifies the myriad ways that class influences every stage of the hiring process at top-tier firms, showing how it is that individuals from affluent backgrounds have come to dominate the most elite segments of the American labor market. She pulls back the curtain time and time again, revealing how processes that are apparently class, race, and gender neutral are anything but.”
—Elizabeth A. Armstrong, coauthor of Paying for the Party: How College Maintains Inequality

“Pedigree sets a new standard of rigor for qualitative social-science research. Rivera shows how educational stratification in the United States is particularly pronounced and caste-like at the gateway to elite professions, and how the boundary between elite colleges and the elite firms that recruit from them is so fuzzy as to be only ceremonial.”
—Mitchell L. Stevens, author of Creating a Class: College Admissions and the Education of Elites

May 2015. 280 pages. 5 line illus.
Cl: 978-0-691-15562-3 $35.00 | £24.95

New Paperback
Codes of Finance
Engineering Derivatives in a Global Bank
Vincent Antonin Lépinay

“The first in-depth anthropological study of how banks invent new financial products. . . . Lépinay spent nearly two years in a huge French bank . . . and his study is both highly revealing and slightly farcical.”
—Guardian

“We have not seen an ethnography like Codes of Finance in a long time. Through the prism of innovative financial services designed in a French bank, Vincent Lépinay asks us to revise our conception of organizations, innovations, profit, and speculation, and makes clear why the issue is not so much how to get rid of derivatives as why we need to understand them.”
—Michel Callon, École des Mines de Paris

2015. 304 pages. 25 line illus. 1 table.

A Social Strategy
How We Profit from Social Media
Mikolaj Jan Piskorski

“This is book about how to go about theorizing in the social sciences. It speaks to graduate students preparing for a dissertation and, perhaps more, to their mentors. It is a perfect textbook for a graduate seminar, and offers a stimulating challenge to any social scientist who is curious about how his or her own ‘art of theorizing’ compares with Swedberg’s. I’ve been a theoretical social scientist for more than half a century, and I was captivated.”
—Thomas C. Schelling, Nobel Laureate in Economics

2014. 288 pages. 1 line illus. 1 table. Cl: 978-0-691-15522-7 $29.95 | £19.95

**Getting Incentives Right**
Improving Torts, Contracts, and Restitution
Robert D. Cooter & Ariel Porat

“Getting Incentives Right does just as the book’s title says, and does so in a way that will startle and educate novices as well as seasoned economists and lawyers, not to mention law professors and their students. The book guides readers to places where multiple parties and margins are accounted for, casting brilliant light on important legal problems.”
—Saül Levmore, University of Chicago Law School

“Cooter and Porat are the most innovative and inspirational law and economics scholars of our generation. More than anyone else, they are good at identifying ideas, problems, and solutions that cut across subject areas. This book brings them together to unveil common threads and exploit analytical synergies between different concepts. This is a work that every scholar in the field and every respectable academic library will want to own.”
—Francesco Parisi, University of Minnesota Law School and University of Bologna

2014. 240 pages. 11 line illus. 4 tables.
Cl: 978-0-691-15159-5 $39.50 | £27.95

**Competition Policy and Price Fixing**
Louis Kaplow

“Kaplow challenges—with gusto—the very foundations of existing price fixing doctrine. Read this book with an open mind and you will come away questioning basic concepts long taken for granted in antitrust law. Kaplow’s analysis is precise and devastating. Prepare to be challenged and rewarded by this brilliant and radical book.”
—Carl Shapiro, University of California, Berkeley

“Kaplow has produced what is likely to be recognized as the definitive work on price fixing. His analysis is rigorous, comprehensive, lucid, and convincing.”
—Richard A. Posner, University of Chicago Law School

2013. 512 pages. 25 line illus.
Cl: 978-0-691-15862-4 $49.50 | £34.95

With a foreword by Stephen Breyer

**Collaborative Governance**
Private Roles for Public Goals in Turbulent Times
John D. Donahue & Richard J. Zeckhauser

“Required reading for anyone interested or involved in public policy making to understand the potential value, and risks, of collaborative governance.”
—Sasha Jesperson, LSE Politics and Policy blog

2012. 320 pages. 5 line illus. 3 tables.
Pa: 978-0-691-15630-9 $18.95 | £12.95
Cl: 978-0-691-14979-0 $27.95 | £19.95

**The Behavioral Foundations of Public Policy**
Edited by Eldar Shafir

“[Behavioral Foundations of Public Policy] is a master compendium of what we know.”
—David Brooks, New York Times

“I would recommend this book to anyone looking for a comprehensive perspective on the potential and limitations of the behavioural insights popularized by Nudge and similar works. . . . Those in government, non-profits, and the private sector interested in empirically supported ways to motivate people to act in their own best interest will find a rich source of examples and exposure to underlying theory in The Behavioral Foundations of Public Policy.”
—Jennifer Miller, LSE Review of Books

2013. 536 pages. 35 line illus. 23 tables.
Cl: 978-0-691-13756-8 $55.00 | £37.95

New

The Transformation of the World
A Global History of the Nineteenth Century
Jürgen Osterhammel
Translated by Patrick Camiller
“A work of tremendous conceptual precision, breadth and insight, a masterpiece that sets a new benchmark for debates on the history of world society.”
—Benjamin Ziemann, Times Literary Supplement

This superb study gives form to a global history that lasts from the late 18th well into the 20th century and it does so without oversimplifying. It is exhilarating to find a system builder with such a feeling for nuance and difference... [T]he history enthusiast will find there is no match for this resource. In it, there is much to appreciate.”
—Library Journal (starred review)

2014. 1192 pages. 6 tables.
Cl: 978-0-691-14745-1 $39.95 | £27.95
