**Eclipse of God**
Studies in the Relation between Religion and Philosophy
 **Martin Buber**
With a new introduction by Leora Batnitzky

“[Buber] remains a philosopher for our times. As he writes in the prelude to this volume, ‘Real listening has become rare’ . . . . Buber’s words could not be more prophetic.” —Leora Batnitzky, Princeton University

Biblical in origin, the expression “eclipse of God” refers to the Jewish concept of *hester panim*, the act of God concealing his face as a way of punishing his disobedient subjects. Though this idea is deeply troubling for many people, in this book Martin Buber uses the expression hopefully—for a hiding God is also a God who can be found.

**The Prophetic Faith**
Martin Buber
With a new introduction by Jon D. Levenson

Originally published in English in 1949, *The Prophetic Faith* features Martin Buber’s readings of select biblical prophets—especially Isaiah and Deborah, the only female prophet and judge in the Hebrew Bible. In an approach that combines insights from biblical prophecy with a concern for events in the here and now, Buber outlines his interpretation of biblical revelation. Infused with an anti-institutional—some have said anarchic—sensibility, Buber discusses the notion of kingship as portrayed in the Bible and provides an account of human suffering in an extended discussion of the Book of Job.

**Hasidism and Modern Man**
Martin Buber
Edited and translated by Maurice Friedman
With a new introduction by David Biale

First published in 1958, *Hasidism and Modern Man* examines the life and religious experiences of Hasidic Jews, as well as Buber’s personal response to them. From the autobiographical “My Way to Hasidism,” to “Hasidism and Modern Man,” and “Love of God and Love of Neighbor,” the essays span nearly a half a century and reflect the evolution of Buber’s religious philosophy in relation to the Hasidic movement. *Hasidism and Modern Man* remains prescient in its portrayal of a spiritual movement that brings God down to earth and makes possible a modern philosophy in which the human being becomes sacred.

What’s Divine about Divine Law?
Early Perspectives
Christine Hayes

“For anyone interested in the history of Western legal thought, this lucid, lively, and meticulously argued book is an indispensable text. With verve and a scholar’s mastery of the sources, Hayes brilliantly tells the story of an ancient theological quarrel whose echoes can still be heard in every law school classroom today.”
—Anthony Kronman, Yale Law School

Hayes invites us to consider how the early rabbinic conception of divine law continues to echo in modern debates within Judaism. Her remarkable book should be required reading for anyone concerned about the future of Judaism and, indeed, the future of law.”
—Suzanne L. Stone, Yeshiva University

A stunning achievement in intellectual history, What’s Divine about Divine Law? sheds critical light on an ancient debate that would shape foundational Western thought, and that continues to inform contemporary views about the nature and purpose of law and the nature and authority of Scripture.

Biblical Perspectives on Procreation and Childlessness

Cultural Exchange
Jews, Christians, and Art in the Medieval Marketplace
Joseph Shatzmiller

“Clearly, this book is only the beginning of a series of works dedicated to the study of material links between medieval Jewish and Christian communities and of the interdependence they unveil. And we can only hope that its successors will keep up the high standards of writing and methodological expertise established in Cultural Exchange by Joseph Shatzmiller.”
—Andor Kelenhegyi, European Review of History

Demonstrating that similarities between Jewish and Christian art in the Middle Ages were more than coincidental, Cultural Exchange meticulously combines a wide range of sources to show how Jews and Christians exchanged artistic and material culture. Joseph Shatzmiller focuses on communities in northern Europe, Iberia, and other Mediterranean societies where Jews and Christians coexisted for centuries, and he synthesizes the most current research to describe the daily encounters that enabled both societies to appreciate common artistic values.

Defining Neighbors
Religion, Race, and the Early Zionist-Arab Encounter
Jonathan Marc Gribetz

“Fortuitously for readers, Gribetz's work . . . contextualize[s] a present-day shift toward religious rhetoric, symbols, and organizations in the conflict. He shows that religion was once central for Jews and Arabs seeking to understand each other, and that nationality is in fact a latecomer to that encounter. But more importantly, he shows that a religious encounter need not mean a holy war.”
—Raphael Magarik, Haaretz

"In this meticulously researched book, Gribetz offers a fresh look at early relations between Zionists and Arabs in Palestine. Examining what he terms their ‘textual conversation,’ he highlights the role of religion and race in the development of mutual perceptions. The British used religion to separate the communities; race could have served to break down barriers of identity. Gribetz reminds us that the way people understand each other is not fixed or immutable.”

A History of Jewish-Muslim Relations
From the Origins to the Present Day
Edited by Abdelwahab Meddeb & Benjamin Stora

“Although contemporary media may portray Muslim-Jewish relations from only the perspective of the Palestinian-Israeli lens, and view Muslims and Jews as monolithic, this book presents a far deeper and richer relationship between Muslims and Jews in areas that go beyond politics and religion…. The essays presented here provide the general reader with a flavor of the rich Muslim-Jewish relationship since early Islam. An excellent reference for high-school students, general readers looking for more depth than current media coverage, and undergraduates looking for a starting point in their research.”

Muslims and Jews in France
History of a Conflict
Maud S. Mandel

“Muslims and Jews in France is a remarkably concise and clear analysis of the complex relationship and mutual constitution of the two communities. Mandel has a knack for making the paradoxes of her subjects accessible, making this book necessary reading for anyone interested in contemporary French history and politics, Jewish history and Muslim-Jewish relations: instead of just lamenting the news, it allows us to think through it critically.”
—Arthur Asseraf, French History

“For those who prefer thoughtful historical analysis to slogans, Mandel’s book is one place to turn. What one finds is that post-war Jewish life in Europe in general, and France in particular, belies the tidy narrative still being constructed.”

Lives of Great Religious Books

“[A]n excellent Princeton series.”
—Wendy Doniger, *New York Review of Books*

*Lives of Great Religious Books* is a new series of short volumes that recount the complex and fascinating histories of important religious texts from around the world. Written for general readers by leading authors and experts, these books examine the historical origins of texts from the great religious traditions, and trace how their reception, interpretation, and influence have changed—often radically—over time. As these stories of translation, adaptation, appropriation, and inspiration dramatically remind us, all great religious books are living things whose careers in the world can take the most unexpected turns.
