**Pogrom in Gujarat**
Hindu Nationalism and Anti-Muslim Violence in India
Parvis Ghassem-Fachandi

“This book is an intimate and disturbing exploration of the cultural formations around nationalism, vegetarianism, and religious imaginings that have arisen in modern-day Gujarat” —Thomas Blom Hansen, author of *Wages of Violence: Naming and Identity in Postcolonial Bombay*

In 2002, after an altercation between Muslim vendors and Hindu travelers at a railway station in the Indian state of Gujarat, fifty-nine Hindu pilgrims were burned to death. The ruling nationalist Bharatiya Janata Party blamed Gujarat’s entire Muslim minority for the tragedy and incited fellow Hindus to exact revenge. The resulting violence left more than one thousand people dead—most of them Muslims—and tens of thousands more displaced from their homes. Parvis Ghassem-Fachandi witnessed the bloodshed up close. In *Pogrom in Gujarat*, he provides a riveting ethnographic account of collective violence in which the doctrine of ahimsa—or nonviolence—and the closely associated practices of vegetarianism became implicated by legitimating what they formally disavow.

Parvis Ghassem-Fachandi is assistant professor of anthropology at Rutgers University.

**The New Arab Man**
Emergent Masculinities, Technologies, and Islam in the Middle East
Marcia C. Inhorn

“This is a groundbreaking book that makes an extraordinary contribution to the fields of medical anthropology, Middle East studies, and reproductive health. Drawing on rigorous ethnographic fieldwork in multiple countries, Inhorn offers a well-researched, nuanced, and moving reflection on what she terms ‘emergent masculinities’ in the Middle East. Inhorn is a trailblazer in medical anthropology, and *The New Arab Man* addresses astonishing gaps in gender studies and related fields.” —Angel M. Foster, University of Ottawa and Ibis Reproductive Health

Middle Eastern Muslim men have been widely vilified as terrorists, religious zealots, and brutal oppressors of women. *The New Arab Man* challenges these stereotypes with the stories of ordinary Middle Eastern men as they struggle to overcome infertility and childlessness through assisted reproduction.

Trenchant and emotionally gripping, *The New Arab Man* traces the emergence of new masculinities in the Middle East in the era of biotechnology.

Marcia C. Inhorn is the William K. Lanman, Jr., Professor of Anthropology and International Affairs at Yale University.

“Europe and the Islamic World makes for an interesting and sometimes provocative volume. In this erudite book, three distinguished scholars give their unique perspectives on Muslim-European political encounters, cultural exchanges, representations, and interactions. Their argument is that these encounters have been many, diverse, and ongoing. Europe and the Islamic World informs—and large parts of it entertain.”
—Virginia H. Aksan, author of Ottomans and Europeans: Contacts and Conflicts

“Many Americans and Europeans take it for granted that the West and Islam are at war and always have been. Tolan, Veinstein, and Laurens argue that we are part of the same civilization, for all the violence and conflict over the centuries. Europe and the Islamic World is a book of great learning and great passion.”
—Mark Gregory Pegg, author of The Corruption of Angels: The Great Inquisition of 1245–1246

Europe and the Islamic World sheds much-needed light on the shared roots of Islamic and Western cultures and on the richness of their inextricably intertwined histories, refuting once and for all the misguided notion of a “clash of civilizations” between the Muslim world and Europe. In this landmark book, three eminent historians bring to life the complex and tumultuous relations between Genoans and Tunisians, Alexandrians and the people of Constantinople, Catalans and Maghrebis—the myriad groups and individuals whose stories reflect the common cultural, intellectual, and religious heritage of Europe and Islam.

Since the seventh century, when the armies of Constantinople and Medina fought for control of Syria and Palestine, there has been ongoing contact between the Muslim world and the West. This sweeping history vividly recounts the wars and the crusades, the alliances and diplomacy, commerce and the slave trade, technology transfers, and the intellectual and artistic exchanges. Here readers are given an unparalleled introduction to key periods and events, including the Muslim conquests, the collapse of the Byzantine Empire, the commercial revolution of the medieval Mediterranean, the intellectual and cultural achievements of Muslim Spain, the crusades and Spanish reconquest, the rise of the Ottomans and their conquest of a third of Europe, European colonization and decolonization, and the challenges and promise of this entwined legacy today.

As provocative as it is groundbreaking, this book describes this shared history in all its richness and diversity, revealing how ongoing encounters between Europe and Islam have profoundly shaped both.

Warriors of the Cloisters
The Central Asian Origins of Science in the Medieval World
Christopher I. Beckwith

“The insights contained in this book could not have come from anyone else but the inquisitive and resourceful Beckwith. *Warriors of the Cloisters* draws on research into an extraordinarily broad range of subjects and is certain to elicit debate.” —S. Frederick Starr, Johns Hopkins University

*Warriors of the Cloisters* tells how key cultural innovations from Central Asia revolutionized medieval Europe and gave rise to the culture of science in the West. Medieval scholars rarely performed scientific experiments, but instead contested issues in natural science, philosophy, and theology using the recursive argument method.

Nasser’s Gamble
How Intervention in Yemen Caused the Six Day War and the Decline of Egyptian Power
Jesse Ferris

“An engrossing and lively narrative. Ferris has taken advantage of the release of many important Soviet documents and has also made very extensive use of documents from U.S. and British archives, a host of memoirs and other sources in Arabic, and some exceedingly useful items in Hebrew.” —Mark Kramer, Harvard University

*Nasser’s Gamble* draws on declassified documents from six countries and original material in Arabic, German, Hebrew, and Russian to present a new understanding of Egypt’s disastrous five-year intervention in Yemen, which Egyptian president Gamal Abdel Nasser later referred to as “my Vietnam.” Jesse Ferris argues that Nasser’s attempt to export the Egyptian revolution to Yemen played a decisive role in destabilizing Egypt’s relations with the Cold War powers, tarnishing its image in the Arab world, ruining its economy, and driving its rulers to instigate the fatal series of missteps that led to war with Israel in 1967.

Bold and provocative, *Nasser’s Gamble* brings to life a critical phase in the modern history of the Middle East. Its compelling analysis of Egypt’s fall from power in the 1960s offers new insights into the decline of Arab nationalism, exposing the deep historical roots of the Arab Spring of 2011.

Jesse Ferris is vice president for strategy at the Israel Democracy Institute and a historian of the modern Middle East.

The Oil Curse
How Petroleum Wealth Shapes the Development of Nations
Michael L. Ross

“Economists have mostly shied away from full costings of the ecological and social devastation of oil use. Were they to do so with thoroughness and authority displayed by Ross in The Oil Curse, they might start to develop the new economic model for oil and other extractive industries that is so desperately needed.”—John Vidal, Nature

Countries that are rich in petroleum have less democracy, less economic stability, and more frequent civil wars than countries without oil. What explains this oil curse? And can it be fixed? In this groundbreaking analysis, Michael L. Ross looks at how developing nations are shaped by their mineral wealth—and how they can turn oil from a curse into a blessing.

Ross traces the oil curse to the upheaval of the 1970s, when oil prices soared and governments across the developing world seized control of their countries’ oil industries. Before nationalization, the oil-rich countries looked much like the rest of the world; today, they are 50 percent more likely to be ruled by autocrats—and twice as likely to descend into civil war—than countries without oil.

This landmark book explains why good geology often leads to bad governance, and how this can be changed.

Michael L. Ross is professor of political science at the University of California, Los Angeles.

Of Empires and Citizens
Pro-American Democracy or No Democracy at All?
Amaney A. Jamal

“A wonderful addition to debates about impediments to democracy, the sources and consequences of anti-Americanism, and the character of U.S. foreign policy, this book is essential reading.”
—Lisa Anderson, American University in Cairo

In the post–Cold War era, why has democratization been slow to arrive in the Arab world? This book argues that to understand support for the authoritarian status quo in parts of this region—and the willingness of its citizens to compromise on core democratic principles—one must factor in how a strong U.S. presence and popular anti-Americanism weakens democratic voices. Examining such countries as Jordan, Kuwait, Morocco, Palestine, and Saudi Arabia, Amaney Jamal explores how Arab citizens decide whether to back existing regimes, regime transitions, and democratization projects, and how the global position of Arab states shapes people’s attitudes toward their governments.

The Young Turks’ Crime against Humanity
The Armenian Genocide and Ethnic Cleansing in the Ottoman Empire
Taner Akçam

“Taner Akçam, a meticulous and courageous scholar, continues his pathbreaking work on the Turkish genocide of Armenians. The Young Turks’ Crime against Humanity will have extraordinary significance not only for Armenians and Turks, but for all students of genocide and for the larger human struggle to identify, name, and combat mass killing.”
—Robert Jay Lifton, author of Witness to an Extreme Century: A Memoir

Introducing new evidence from more than 600 secret Ottoman documents, this book demonstrates in unprecedented detail that the Armenian Genocide and the expulsion of Greeks from the late Ottoman Empire resulted from an official effort to rid the empire of its Christian subjects. Presenting these previously inaccessible documents along with expert context and analysis, Taner Akçam’s most authoritative work to date goes deep inside the bureaucratic machinery of Ottoman Turkey to show how a dying empire embraced genocide and ethnic cleansing.

Taner Akçam, the first scholar of Turkish origin to publicly acknowledge the Armenian Genocide, holds the Kalosdian and Mugar Chair in Armenian Genocide Studies at Clark University.
