lives of great religious books

Lives of Great Religious Books is a series of short volumes that recount the complex and fascinating histories of important religious texts from around the world. Written for general readers by leading authors and experts, these books examine the historical origins of texts from the great religious traditions, and trace how their reception, interpretation, and influence have changed—often radically—over time. As these stories of translation, adaptation, appropriation, and inspiration dramatically remind us, all great religious books are living things whose careers in the world can take the most unexpected turns.

**Sin**
The Early History of an Idea
Paula Fredriksen

“Paula Fredriksen’s new book offers a masterfully clear and readable exposition of complex issues, showing how traditional Jewish views of sin were transmuted by the Christian theologians Origen and Augustine in nearly opposite ways, to create startlingly different views of human nature.”
—Elaine Pagels, author of *The Origin of Satan*

“In *Sin*, Paula Fredriksen takes readers on a lively trip through the early Christian theological landscape, making strategic stops that clarify divergent convictions about sin and redemption. This is a book that offers surprises as well as startling illumination.”
—Karen L. King, author of *The Secret Revelation of John*

Ancient Christians invoked sin to account for an astonishing range of things, from the death of God’s son to the politics of the Roman Empire that worshipped him. In this book, award-winning historian of religion Paula Fredriksen tells the surprising story of early Christian concepts of sin, exploring the ways that sin came to shape ideas about God no less than about humanity.

This is a powerful and original account of the early history of an idea that has centrally shaped Christianity and left a deep impression on the secular world as well.

Paula Fredriksen is the Aurelio Professor Emerita at Boston University, she now teaches as Distinguished Visiting Professor of Comparative Religion at the Hebrew University in Jerusalem.

**Through the Eye of a Needle**
Wealth, the Fall of Rome, and the Making of Christianity in the West, 350–550 AD
Peter Brown

“Here Peter Brown listens to the heartbeat of the late Roman world. His report is a masterpiece that introduces us to the wealth and poverty of an empire as it implodes, and the inspiring Christian concept of treasure in heaven. Excavating the roots of medieval charity, he illuminates the problems of rich and poor today, and delivers a triumph of history at its finest.”
—Judith Herrin, author of *Byzantium: The Surprising Life of a Medieval Empire*

“The gap between rich and poor is one of the major issues of today, and who better than Peter Brown to probe the acute problems of conscience it presented to late antique Christians? In this important book, he brings to this vital subject his characteristic wit, wisdom, and humanity, as well as the mature reflection of a great historian. It is a magnificent achievement.”
—Averil Cameron, author of *The Mediterranean World in Late Antiquity: AD 395–700*

Jesus taught his followers that it is easier for a camel to go through the eye of a needle than for a rich man to enter heaven. Yet by the fall of Rome, the church was becoming rich beyond measure. *Through the Eye of a Needle* is a sweeping intellectual and social history of the vexing problem of wealth in Christianity in the waning days of the Roman Empire, written by the world’s foremost scholar of late antiquity.

Inheriting Abraham
The Legacy of the Patriarch in Judaism, Christianity, and Islam
Jon D. Levenson

"In Inheriting Abraham, one of the world's leading Bible scholars, Jon D. Levenson, has given us an incisive and deeply challenging account of the three Abrahams of Jewish, Christian, and Islamic theology. It may be, he suggests, that we are divided by a common ancestry and that we need to understand our differences no less than our commonalities. A brilliant, well-argued, and much-needed work."
—Rabbi Lord Jonathan Sacks, Chief Rabbi of the United Hebrew Congregations of the Commonwealth

Jews, Christians, and Muslims supposedly share a common religious heritage in the patriarch Abraham, and the idea that he should serve only as a source of unity among the three traditions has become widespread in both scholarly and popular circles. Inheriting Abraham boldly challenges this view, demonstrating Abraham's distinctive role in each tradition, while delineating the points of connection as well.

Jon D. Levenson is the Albert A. List Professor of Jewish Studies at Harvard University.

No Joke
Making Jewish Humor
Ruth R. Wisse

"An essential examination of Jewish humor. Ruth Wisse ably traces the subject through high literature and low culture, from Heine to Borat, offering new and glimmering insights in each case. She takes on the difficult questions, not least the one of utility: has humor helped the Jews, and does it help them still? No Joke is vastly erudite, deeply informative, and delightfully written—plus it's got plenty of good jokes. What more could one ask for?"
—Jeremy Dauber, Columbia University

Humor is the most celebrated of all Jewish responses to modernity. In this book, Ruth Wisse evokes and applauds the genius of spontaneous Jewish joking—as well as the brilliance of comic masterworks by writers like Heinrich Heine, Sholem Aleichem, Isaac Babel, S. Y. Agnon, I. B. Singer, and Philip Roth. At the same time, Wisse draws attention to the precarious conditions that call Jewish humor into being—and the price it may exact from its practitioners and audience.

Ruth R. Wisse is the Martin Peretz Professor of Yiddish Literature and professor of comparative literature at Harvard University.

The role of liberalized, ecumenical Protestantism in American history has too often been obscured by the more flamboyant and orthodox versions of the faith that oppose evolution, embrace narrow conceptions of family values, and continue to insist that the United States should be understood as a Christian nation. In this book, one of our preeminent scholars of American intellectual history examines how liberal Protestant thinkers struggled to embrace modernity, even at the cost of yielding much of the symbolic capital of Christianity to more conservative, evangelical communities of faith.

“In this powerfully researched, cogently argued, and eloquently written book, Ossa-Richardson traces how humanist antiquarians, philosophers and theologians writing on divination, and a host of others tried to understand and explain the ancient and patristic accounts of pagan oracles. He opens up rich and uncharted intellectual territories, offering a vast amount of unknown material and some sharp interventions into current historical debates. This is a terrific piece of work.”

“Violence and terror in the name of God are as old as religion itself. Princeton Readings in Religion and Violence is a timely and important collection that will be welcomed by experts and students alike. Its combination of religious texts with writings of theologians, philosophers, social scientists, and religious extremists offers a unique approach to understanding the origins, nature, history, and justification of violence in religions’ holy and unholy wars.”

A Very Brief History of Eternity
Carlos Eire

“Carlos Eire’s A Very Brief History of Eternity reminds us that our puzzlement over what comes after death has a history. The ways in which we ask about our relation to death and the hereafter do not take place in a vacuum. Instead, our wondering arises within particular historical contexts, where life and death are related in particular ways.”

Red State Religion
Faith and Politics in America’s Heartland
Robert Wuthnow

“Scrutinizing Kansas’s red state religion, Wuthnow discovers a complex, compassionate, and balanced approach to social goods and moral choices. On Sacrifice
Moshe Halbertal

“This is an important book, full of wonderful ideas about biblical sacrifice, which demonstrates Halbertal’s unique ability to conceptualize biblical and rabbinic texts, drawing philosophically interesting implications from their language and narratives. His account of sacrifice as a gift in a hierarchically asymmetric structure provides a corrective to those who would simply appropriate Mauss’ theory, and Halbertal’s take on the relation between sacrifice and violence reverses in many ways Girard’s approach.”

The War for Afghanistan: A Very Brief History
from Afghanistan: A Cultural and Political History
Thomas Barfield

When it invaded Afghanistan in 2001, the United States sought to do something previous foreign powers had never attempted: to create an Afghani state where none existed. More than a decade on, the new regime in Kabul remains plagued by illegitimacy and ineffectiveness. What happened? As Thomas Barfield shows, the history of previous efforts to build governments in Afghanistan does much to explain the difficulties besetting this newest experiment.
