Lives of Great Religious Books is a series of short volumes that recount the complex and fascinating histories of important religious texts from around the world. Written for general readers by leading authors and experts, these books examine the historical origins of texts from the great religious traditions, and trace how their reception, interpretation, and influence have changed—often radically—over time. As these stories of translation, adaptation, appropriation, and inspiration dramatically remind us, all great religious books are living things whose careers in the world can take the most unexpected turns.

Why Can the Dead Do Such Great Things? Saints and Worshippers from the Martyrs to the Reformation
Robert Bartlett
“The whole of medieval life is contained in Robert Bartlett’s history of the cult of saints. Wisely combining a chronological account and thematic explorations, Bartlett surveys the whole of Europe and its vastly diverse people. This is a remarkable feat that takes the medieval passion for saints and their relics not as a given, but as an intellectual challenge. Bartlett shows that as Christian Europe lost the ancient gods of nature it gained a landscape marked by those great things that only very special dead people could do.”
—Miri Rubin, Queen Mary University of London

From its earliest centuries, one of the most notable features of Christianity has been the veneration of the saints—the holy dead. This sweepingly ambitious history from one of the world’s leading medieval historians tells the fascinating story of the cult of the saints from its origins in the second-century days of the Christian martyrs to the Protestant Reformation. Drawing on sources from around the Christian world, Robert Bartlett examines all of the most important aspects of the saints—including miracles, relics, pilgrimages, shrines, and the saints’ role in the calendar, literature, and art.

Jews and the Military
A History
Derek J. Penslar
“This book shatters the conventional image of diaspora Jews as a people who shun warfare. With exemplary scholarship and a gimlet eye for telling historical evidence, Derek Penslar analyzes Jewish participation in armies from the seventeenth century to the present. Wide-ranging in its scope, original in its argument, and elegant in its presentation, this is the work of a master historian at the peak of his powers.”
—Bernard Wasserstein, author of On the Eve: The Jews of Europe Before the Second World War

Jews and the Military is the first comprehensive and comparative look at Jews’ involvement in the military and their attitudes toward war from the 1600s until the creation of the state of Israel in 1948. Derek Penslar shows that although Jews have often been described as people who shun the army, in fact they have frequently been willing, even eager, to do military service, and only a minuscule minority have been pacifists. Penslar demonstrates that Israel’s military ethos did not emerge from a vacuum and that long before the state’s establishment, Jews had a vested interest in military affairs.

Deconstructing old stereotypes, Jews and the Military radically transforms our understanding of Jews’ historic relationship to war and military power.

The Golden Age Shtetl
A New History of Jewish Life in East Europe
Yohanan Petrovsky-Shtern

“An inspiring and rich study. In this highly innovative book, Petrovsky-Shtern demonstrates how the shtetl in early nineteenth-century Russia constituted a unique context for the unfolding of a proud, resilient, and sustainable Jewish community.”
—François Guesnet, University College London

Yohanan Petrovsky-Shtern brings this golden age to life, looking at dozens of shtetls and drawing on a wealth of never-before-used archival material. The shtetl, in essence, was a Polish private town belonging to a Catholic magnate, administratively run by the tsarist empire, yet economically driven by Jews. Petrovsky-Shtern shows how its success hinged on its unique position in this triangle of power—as did its ultimate suppression. He reconstructs the rich social tapestry of these market towns, showing how Russian clerks put the shtetl on the empire’s map, and chronicling how shtetl Jews traded widely, importing commodities from France, Austria, Prussia, and even the Ottoman Empire. Petrovsky-Shtern describes family life; dwellings, trading stalls, and taverns; books and religious life; and the bustling marketplace with its Polish gentry, Ukrainian peasants, and Russian policemen.

Muslims and Jews in France
History of a Conflict
Maud S. Mandel

“Using a wide variety of sources and focusing on local events in Marseille, Mandel deftly shows how a specifically French history interacts with international events to produce conflicts between Jews and Muslims. She provides new and important insights into the nature of the conflict, the political groups that produced it, and the ways in which perceptions of each group have been shaped.”
—Joan Wallach Scott, author of The Politics of the Veil

This book traces the global, national, and local origins of the conflict between Muslims and Jews in France, challenging the belief that rising anti-Semitism in France is rooted solely in the unfolding crisis in Israel and Palestine. Maud Mandel shows how the conflict in fact emerged from processes internal to French society itself even as it was shaped by affairs elsewhere, particularly in North Africa during the era of decolonization.

In Search of Sacred Time
Jacobus de Voragine and The Golden Legend
Jacques Le Goff
Translated by Lydia G. Cochrane
“This is a comprehensive and innovative interpretation of The Golden Legend. Jacques Le Goff—one of the world’s finest medieval historians—has produced a most engaging and important book. It combines utter authority, intellectual vigor, beautiful prose, and countless rich insights into medieval culture. Taking the approach of a cultural historian, Le Goff shows why the vastly ambitious Golden Legend had such a tremendous purchase on the medieval imagination.”

Cultural Exchange
Jews, Christians, and Art in the Medieval Marketplace
Joseph Shatzmiller

“This valuable book supports the view that medieval Jews in northern Europe, Iberia, and other Mediterranean societies were open to the style and iconography of their Christian neighbors, despite the protest of Jewish and Christian authorities. While other books on medieval Jewish economic activity, religious customs, and illuminated Hebrew manuscripts have made this case, no other book provides a comprehensive state of the field for researchers and general readers alike.” —Ivan G. Tradition and the Formation of the Talmud
Moulie Vidas

“One of the most important trends in Talmud scholarship of the past half century is the recognition of the anonymous editorial hand. The Scandal of Kabbalah
Leon Modena, Jewish Mysticism, Early Modern Venice
Yaacob Dweck

“Dweck’s meticulous and illuminating study has itself breathed new life into the Ari Nohem. It gives one reason to hope that it will finally become available in an English translation and that Yaacob Dweck will make the publication of such a volume one of his future projects.” —Howard Tzvi Adelman, Jewish Review of Books
The Scandal of Kabbalah is the first book about the origins of a culture war that began in early modern Europe and continues to this day: the debate between kabbalists and their critics on the nature of Judaism and the meaning of religious tradition. From its medieval beginnings as an esoteric form of Jewish mysticism, Kabbalah spread throughout the early modern world and became a central feature of Jewish life. Scholars have long studied the revolutionary impact of Kabbalah, but, as Yaacob Dweck argues, they have misunderstood the character and timing of opposition to it.

Heavenly Merchandize
How Religion Shaped Commerce in Puritan America
Mark Valeri
“Heavenly Merchandize is a compelling original exploration of moral conviction and commercial culture in early New England. Boldly challenging the view that the demise of piety was a condition for the rise of opportunistic market behavior, Valeri finds that New England’s ministers and merchants were neither traditionalists eclipsed by a secularizing Atlantic world nor easy protocapitalists rushing into modernity. He discloses a commercial community that was intent upon righteous trading and pious living.”

Faith in the Fight
Religion and the American Soldier in the Great War
Jonathan H. Ebel
“In this book, Jonathan Ebel focuses on the Great War and the jolt it delivered to devout young American Christian soldiers. How were they to interpret this bloodletting and their own role in it?
