“No work of traditional India needs a biography more than the Bhagavad Gita, for no text has had a more complicated life, from its birth in the epic world of the Mahabharata to its maturity in Indian modernity. Reading intelligently depends in part on knowing how others in the past have read, and for the Gita’s past, Richard Davis has provided the best guidance available.”

What's Divine about Divine Law?
Early Perspectives
Christine Hayes

“This is a pathbreaking and ambitious study of a topic of crucial importance for Jewish studies in particular and legal philosophy more broadly. The scholarship is first-rate. Hayes convincingly establishes that the rabbinic discourse on divine law in late antiquity was self-consciously distinct from Greco-Roman conceptions as well as a great deal of prior Jewish literature.”
—Jonathan Klawans, author of Josephus and the Theologies of Ancient Judaism

What's Divine about Divine Law? untangles the classical and biblical roots of the Western idea of divine law and shows how early adherents to biblical tradition struggled to make sense of this conflicting legacy.

**Defining Neighbors**
Religion, Race, and the Early Zionist-Arab Encounter

Jonathan Marc Gribetz

“In this erudite and engaging work, Jonathan Gribetz shows how racial and religious categories could unite as well as divide Jews and Arabs in early twentieth-century Palestine. Gribetz offers close, insightful readings of Jewish and Arab intellectuals who imagined themselves as neighbors as well as adversaries, and who, while producing apologetic depictions of their own cultures, communicated in a shared cultural language. This book is a fascinating recovery of neglected voices that are strikingly relevant for our own time.”

—Derek J. Penslar, author of *Jews and the Military: A History*

In recent years, scholars have come to see the Talmud as the product of much more than editorial effort in late antiquity—that its building blocks were constructed into an edifice only toward the end of the document’s production. Vidas moves beyond this to argue that even the distinction between building blocks and the text’s construction is a result of the editors, thus entirely upsetting the applecart of possible chronological differences between layers of the text. Vidas’s work is stimulating, troubling, and thrilling.

Human Nature & Jewish Thought
Judaism’s Case for Why Persons Matter
Alan L. Mittleman

“Alan Mittleman, an outstanding contributor to philosophically serious Jewish thought, builds a solid structure of deeply spiritual but always open-eyed reflections.”

—Lenn Goodman, Vanderbilt University

This book explores one of the great questions of our time: How can we preserve our sense of what it means to be a person while at the same time accepting what science tells us to be true—namely, that human nature is continuous with the rest of nature? What, in other words, does it mean to be a person in a world of things? Alan Mittleman shows how the Jewish tradition provides rich ways of understanding human nature and personhood that preserve human dignity and distinction in a world of neuroscience, evolutionary biology, biotechnology, and pervasive scientism. These ancient resources can speak to Jewish, non-Jewish, and secular readers alike.

**Being German, Becoming Muslim**
Race, Religion, and Conversion in the New Europe
**Esra Özyürek**

“Through thoughtful portraits, Özyürek explores the dilemmas faced by converts to Islam in Germany, where new Muslims are seeking nonethnic forms of the religion. She shows how these converts are finding an original way to be German through their Islam—a discovery that seems dangerous to some in the German state. A clear, convincing account of new Muslims in a European land.”
—John Bowen, author of *Can Islam Be French?*

“This book offers both a call and a hope. Özyürek shows the tremendous role of Muslim converts in making Islam a German and European religion, and she calls converts to meet this challenge. She also presents the common hope of everyone ‘living together’ in unity, and her book is an important contribution to the achievement of this goal.”

Soft Force examines the writings and activism of these women—including scholars, preachers, journalists, critics, actresses, and public intellectuals—who envisioned an Islamic awakening in which women’s rights and the family, equality, and emancipation are at the center.

Paradoxes of Liberal Democracy
Islam, Western Europe, and the Danish Cartoon Crisis
Paul M. Sniderman, Michael Bang Petersen, Rune Slothuus & Rune Stubager

“The paradox of liberal democracy is that, at the height of the Danish cartoon controversy, the Danes did not launch a broadside attack against the civil liberties of their Muslim minority. The pages of this book bring that paradox alive with compelling theoretical and methodological arguments. This is a splendid work of scholarship.”

Greek Buddha
Pyrrho’s Encounter with Early Buddhism
Christopher I. Beckwith
“In Greek Buddha, Beckwith again demonstrates the indebtedness of European culture to the profound interactions that occurred between the ancient peoples of Europe and Asia.”
—Peter B. Golden, professor emeritus of History, Turkish, and Middle Eastern Studies, Rutgers University
Greek Buddha shows how Buddhism shaped the philosophy of Pyrrho, the famous founder of Pyrrhonian scepticism in ancient Greece. Identifying Pyrrho’s basic teachings with those of Early Buddhism, Christopher Beckwith traces the origins of a major tradition in Greek philosophy to Gandhāra, a country in Central Asia and northwestern India.

In Search of Sacred Time
Jacobus de Voragine and The Golden Legend
Jacques Le Goff
Translated by Lydia G. Cochrane
“In this penetrating and enlightening study, the great medievalist Jacques Le Goff demonstrates how The Golden Legend, far from being a mere collection of pious legends or saints’ lives, is a carefully constructed meditation on Christian time. Engaging readers in the subtlety and beauty of medieval culture, Le Goff reveals how The Golden Legend was designed to show that the stories of saints and their passions marked time and helped make it sacred.”

Ancient Religions, Modern Politics
The Islamic Case in Comparative Perspective
Michael Cook
“Michael Cook’s book is truly a tour de force. Cook covers an impressive range of material and deals meticulously with key issues. Ancient Religions, Modern Politics is destined to be a landmark in the comparison of religions.”
—Christophe Jaffrelot, author of The Hindu Nationalist Movement in India
Why does Islam play a larger role in contemporary politics than other religions? Is there something about the Islamic heritage that makes Muslims more likely than adherents of other faiths to invoke it in their political life? If so, what is it? Ancient Religions, Modern Politics seeks to answer these questions by examining the roles of Islam, Hinduism, and Christianity in modern political life, placing special emphasis on the relevance—or irrelevance—of their heritages to today’s social and political concerns.

**The Politics of Evangelical Identity**
Local Churches and Partisan Divides in the United States and Canada

**Lydia Bean**

“The Politics of Evangelical Identity is a bracing corrective to the perception of evangelicals as theological stooges mesmerized by the spell of conservative masterminds. Bean persuasively argues that the appeal of conservatives in the evangelical base has far more to do with how they connect the political to everyday spiritual and religious practices. Her path-clearing and transformative book brilliantly engages the political perspectives, moral passions, and religious beliefs of evangelicals from a practical, grounded perspective.”

—Michael Eric Dyson, George-town University

“The Politics of Evangelical Identity is a very important book, a truly original and deeply insightful exploration of why America’s white evangelical Christians allied with the political Right to a degree that evangelicals in other countries have not.”

The Devil Wins
A History of Lying from the Garden of Eden to the Enlightenment
Dallas G. Denery II

“In this exquisitely written book, Denery draws on centuries of rumination on the moral issues surrounding lying to address the question of how we should live in a fallen world. The serpent in the Garden of Eden led humankind astray with lies. The Devil is the father of lies. Premodern sources agonized constantly over the act of lying. Denery not only superbly narrates the long history of this obsession, but also locates the conditions that reveal an Enlightenment shift toward a not entirely comfortable modernity.”

Philosophy in a Divided World
Carlos Fraenkel

“This short, interesting, and well written book provides an insightful and optimistic view on the possibilities that philosophy offers to bridge religious, ethnic, and cultural divides…. It is a noble project and Fraenkel describes his experiences in a lively narrative that combines the personal and philosophical.”
—Steven Nadler, author of A Book Forged in Hell
