C. S. Lewis’s *Mere Christianity*
A Biography
George M. Marsden

“Though there have been analyses of *Mere Christianity* before, none has been so comprehensive or serious as this one. Marsden has subjected Lewis’s book to an assessment more searching and satisfying than anything so far in print.”

—Michael Ward, University of Oxford, author of *Planet Narnia*

*Mere Christianity*, C. S. Lewis’s eloquent and winsome defense of the Christian faith, originated as a series of BBC radio talks broadcast during the dark days of World War Two. Marsden traces how versions of those talks were first published as three brief paperbacks before being collected together in 1952 under the new title of *Mere Christianity*, and how the book went on to become one of the most widely read presentations of essential Christianity ever published, particularly among American evangelicals.

John Calvin’s *Institutes of the Christian Religion*
A Biography
Bruce Gordon

“Bruce Gordon’s biography of Calvin’s book is well researched, energetically presented, and broadly informative. Gordon ably situates the Institutes against its author and the complicated history of Calvinism.”

—Mark A. Noll, author of *Protestantism: A Very Short Introduction*

John Calvin’s *Institutes of the Christian Religion* is the single most important book of the Reformation and the bedrock of Protestant theology. First published in Latin in 1536 and in Calvin’s native French in 1541, the *Institutes* introduced the doctrine of justification by faith alone, and profoundly influenced the emergence of Calvinism as a major religious and intellectual force in Europe and throughout the world. Here, Bruce Gordon provides essential biography of Calvin’s influential and enduring theological masterpiece, tracing the diverse ways it has been read and interpreted from Calvin’s time to today.

What Is Islam?
The Importance of Being Islamic
Shahab Ahmed

“This book seeks to offer nothing short of a new way of looking at Islam, and it succeeds admirably at so doing. It is rare to find a scholar who can combine the deep textual scholarship that is a hallmark of this work with an ability to engage with issues of theory and method as they arise not just in the study of Islam but, more broadly, in that of religion and culture. The result is a study that is illuminating from beginning to end.”
—Muhammad Qasim Zaman, Princeton University

In What Is Islam?, Shahab Ahmed presents a bold new conceptualization of Islam that challenges dominant understandings grounded in the categories of “religion” and “culture” or that privilege law and scripture. He argues that these modes of thinking obstruct us from understanding Islam, distorting it, diminishing it, and rendering it incoherent. A book that is certain to provoke debate and significantly alter our understanding of Islam, What Is Islam? reveals how Muslims have historically conceived of and lived with Islam as norms and truths that are, at once, contradictory yet coherent.

Reconceiving Infertility
Biblical Perspectives on Procreation and Childlessness
Candida R. Moss & Joel S. Baden

“Reconceiving Infertility shows why Candida Moss and Joel Baden are among the most respected and insightful interpreters of the Bible today.”
—Hector Avalos, Iowa State University

In the Book of Genesis, the first words God speaks to humanity are “Be fruitful and multiply.” From ancient times to today, these words have been understood as a divine command to procreate. Fertility is viewed as a sign of blessedness and moral uprightness, while infertility is associated with sin and moral failing. Reconceiving Infertility explores traditional interpretations such as these, providing a more complete picture of how procreation and childlessness are depicted in the Bible.

Religious Difference in a Secular Age
A Minority Report
Saba Mahmood

“In this stunning book, Mahmood calls into question a good deal of the received wisdom about secularism and the divisions between East and West. Religious Difference in a Secular Age is original, path-breaking, and important.”
—Joan Wallach Scott, author of The Politics of the Veil

The plight of religious minorities in the Middle East is often attributed to the failure of secularism to take root in the region. Religious Difference in a Secular Age challenges this assessment by examining four cornerstones of secularism—political and civil equality, minority rights, religious freedom, and the legal separation of private and public domains.

Drawing on her extensive fieldwork in Egypt with Coptic Orthodox Christians and Bahais—religious minorities in a predominantly Muslim country—Saba Mahmood shows how modern secular governance has exacerbated religious tensions and inequalities rather than reduced them.

Nations under God
How Churches Use Moral Authority to Influence Policy
Anna Grzymała-Busse

“[C]omparative politics at its best…. [A]n essential point of reference for future work on the multifaceted and often uneasy relationship between religion and politics in modern democracies.”
—Giovanni Capoccia, University of Oxford

In some religious countries, churches have drafted constitutions, restricted abortion, and controlled education. In others, church influence on public policy is far weaker. Why? Nations under God argues that where religious and national identities have historically fused, churches gain enormous moral authority—and covert institutional access. These powerful churches then shape policy in backrooms and secret meetings instead of through open democratic channels such as political parties or the ballot box. Grzymała-Busse argues that churches gain the greatest political advantage when they appear to be above politics.

German Jewry and the Allure of the Sephardic
John M. Efron

“[T]he definitive account of the subject. This richly documented and beautifully written book makes quite clear what the stakes were for German Jews in summoning forth the memory of Sephardic forbears. Efron is a historian at the top of his game.”
—David N. Myers, author of Resisting History

In the eighteenth and nineteenth centuries, as German Jews struggled for legal emancipation and social acceptance, they also embarked on a program of cultural renewal, two key dimensions of which were distancing themselves from their fellow Ashkenazim in Poland and giving a special place to the Sephardim of medieval Spain. In this elegantly written book, John Efron looks in depth at the special allure Sephardic aesthetics held for German Jewry.

The Jewish Jesus
How Judaism and Christianity Shaped Each Other
Peter Schäfer

“Watching Peter Schäfer explicate Jewish and Christian texts is like watching a great restorer work on a fresco damaged by time, wind, and water. Blurred outlines come into focus, dull colors become brilliant, and suddenly a forgotten story of exchange between the two religions comes back to dramatic life. This is great scholarship, applied to a subject so complex and difficult that nothing less could do it justice.”

Greek Buddha
Pyrrho’s Encounter with Early Buddhism in Central Asia
Christopher I. Beckwith

“In Greek Buddha, Beckwith again demonstrates the indebtedness of European culture to the profound interactions that occurred between the ancient peoples of Europe and Asia.... Beckwith weaves a rich tapestry of sources to shed new light on the complex processes of cultural exchange.”
—Peter B. Golden, professor emeritus, Rutgers University

Pyrrho of Elis accompanied Alexander the Great to Central Asia and India during the Graeco-Macedonian invasion and conquest of the Persian Empire in 334–324 BC, and while there met with teachers of Early Buddhism. Greek Buddha shows how Buddhism shaped the philosophy of Pyrrho, tracing the origins of a major tradition in Greek philosophy to Gandhāra, a country in Central Asia and northwestern India.
