for thou art the God of my salvation;
for thee I wait all the day long.

6 Be mindful of thy mercy, O LORD,
and of thy steadfast love,
for they have been from of old.

7 Remember not the sins of my youth,
or my transgressions;
according to thy steadfast love re-
member me,
for thy goodness' sake, O LORD!

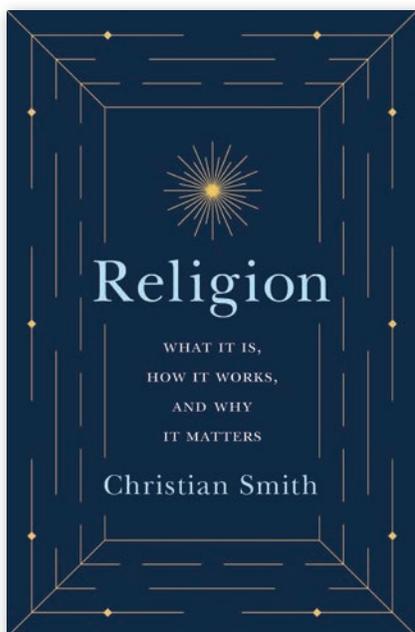

8 Good and upright is the LORD;
therefore he instructs sinners in the
way.

9 He leads the humble in what is right,
and teaches the humble his way.

10 All the paths of the LORD are steady
love and faithfulness,
for those who keep his covenant
and his testimonies.

“A significant reinterpretation of religion that will be very useful to a wide range of scholars.”

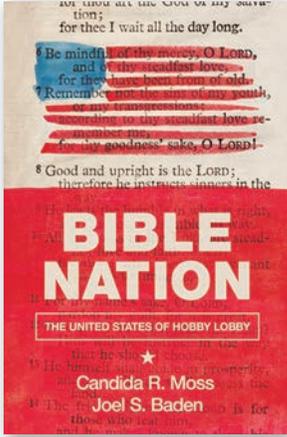

—Ann Taves, author of *Revelatory Events: Three Case Studies of the Emergence of New Spiritual Paths*

Religion

Drawing on the philosophy of critical realism and personalist social theory, Christian Smith defines religion in a way that resolves myriad problems and ambiguities in past accounts and examines the key cognitive process that makes religion possible.

Certain to stimulate debate and inspire promising new avenues of scholarship, *Religion* features a wealth of illustrations and examples that help to make its concepts accessible to readers. This superbly written book brings sound theoretical thinking to a perennially thorny subject, and a new vitality and focus to its study.

CHRISTIAN SMITH is the William R. Kenan Jr. Professor of Sociology and director of the Center for the Study of Religion and Society at the University of Notre Dame.

American Covenant

Was the United States founded as a Christian nation or a secular democracy? *American Covenant* shows how the founders’ original vision for America is threatened by an internecine struggle between religious nationalism and radical secularism. Philip Gorski offers an unsparing critique of both, demonstrating how half a century of culture war has drowned out the quieter voices of the vital center.

Bible Culture and Authority in the Early United States

This book is a wide-ranging exploration of the place of the Christian Bible in America in the decades after the Revolution. Christianity in the Twentieth Century

Christianity in the Twentieth Century charts the transformation of Christianity during an age marked by world wars, genocide, nationalism, and decolonization. This book demonstrates how Christianity has had less to fear from secularism than from the readiness of Christians to accommodate their faith to ideologies that privilege racial identity or radical individualism.

BRIAN STANLEY is professor of world Christianity at the University of Edinburgh.

Hegel’s Social Ethics

Hegel’s Social Ethics offers a fresh and accessible interpretation of G. W. F. Hegel’s most famous book, the *Phenomenology of Spirit*. In Search of the Phoenicians

In Search of the Phoenicians delves into the ancient literary, epigraphic, numismatic, and artistic evidence for the construction of identities by and for the Phoenicians, ranging from the Levant to the Atlantic, and from the Bronze Age to late antiquity and beyond. A momentous scholarly achievement, this book also explores the prose, poetry, plays, painting, and polemic that have enshrined these fabled seafarers in nationalist histories from sixteenth-century England to twenty-first century Tunisia.

The Infidel and the Professor

David Hume is regarded as the most important philosopher ever to write in English, but during his lifetime he was attacked for his skeptical religious views. In contrast, Adam Smith was a professor of moral philosophy, and is now often hailed as the founding father of capitalism. *The Infidel and the Professor* is the first book to tell the story of their friendship and how it influenced their ideas.

The Story of Hebrew

The Story of Hebrew explores the extraordinary hold that Hebrew has had on Jews and Christians, who have invested it with a symbolic power far beyond that of any other language in history. This book takes readers from the opening verses of Genesis—which seemingly describe the creation of Hebrew itself—to the reincarnation of Hebrew as the everyday language of the Jewish state.

Terror in France

Terror in France reveals the truth about a new wave of jihadism that has Europe as its main target. Its aim is to divide European societies from within by instilling fear, provoking backlash, and achieving the ISIS dream—shared by Europe’s Far Right—of separating Europe’s Muslim community from the rest of its citizens.
