How Enemies Become Friends

The Sources of Stable Peace

Charles A. Kupchan

“Kupchan’s book is fascinating, thought provoking, and consequential.”
—Henry Kissinger

“Kupchan’s magisterial accomplishment, drawing on an extraordinary range of theories and cases, is to provide an overarching account of

when and why countries in conflict move toward stable peace.... This book will be read by scholars and policy thinkers for a very long time.”

—G. John Ikenberry, *Foreign Affairs*

In a world where conflict among nations seems inescapable, *How Enemies Become Friends* offers critical insights for building lasting peace.

Charles A. Kupchan is professor of international affairs at Georgetown University and senior fellow at the Council on Foreign Relations. He served on the National Security Council during the Clinton presidency.

The Whites of Their Eyes

The Tea Party’s Revolution and the Battle over American History

Jill Lepore

“Jill Lepore is a national treasure. There is no other writer so at home both as a trenchant scholar of American history and as an on-the-scene observer of our present-day follies. She etches the connection between past and present with a wisdom,

grace, and sparkle.”

—Adam Hochschild, author of *Bury the Chains: Prophets and Rebels in the Fight to Free an Empire’s Slaves*

Americans have always put the past to political ends. The Union laid claim to the Revolution—so did the Confederacy. Civil rights leaders said they were the true sons of liberty—so did Southern segregationists. This book tells the story of the centuries-long struggle over the meaning of the nation’s founding, including the battle waged by the Tea Party, Glenn Beck, Sarah Palin, and evangelical Christians to “take back America.”

Jill Lepore is the David Woods Kemper ’41 Professor of American History at Harvard University and a staff writer at the *New Yorker*.

Who Are the Criminals?

The Politics of Crime Policy from the Age of Roosevelt to the Age of Reagan

John Hagan

"This critically important book offers an incisive analysis of the links between the increase in incarceration for street crime in the last several decades and deregulation of the business suites. It is simultaneously a scholarly tour de force and a sweeping

indictment of the political uses of crime."

—Kitty Calavita, University of California, Irvine

John Hagan is the John D. MacArthur Professor of Sociology and Law at Northwestern University and the American Bar Foundation.

Barack Obama and the Burden of Race

Thomas J. Sugrue

"In *Not Even Past*, one of America's most prominent historians of race and rights turns a shrewd and honest eye to the contemporary scene. It should be essential reading for anyone trying to understand the changes in racial experience and

argument in America since the 1960s, and Barack Obama's place in them."

—Daniel T. Rodgers, author of *Atlantic Crossings: Social Politics in a Progressive Age*

Award-winning historian Thomas Sugrue examines the paradox of race in Obama's America and how President Obama intends to deal with it.

Taming the Gods

Religion and Democracy on Three Continents

Ian Buruma

"Ian Buruma broaches the biggest themes in contemporary world politics in this book: what are the relations, actual and possible, between religion and democracy in a globalized world? In setting out his thoughts, Buruma marshals pungent quotation after pungent quotation from Spinoza, Tocqueville, and Voltaire—not to mention Jefferson, Locke, and Hume; classic Chinese and Japanese texts; and a wide range of modern commentators, politicians, activists, and agitators."

—Andrew Barshay, University of California, Berkeley

Ian Buruma is the first writer to provide a sharp-eyed look at the tensions between religion and politics on three continents. Drawing on many contemporary and historical examples, he argues that the violent passions inspired by religion must be tamed in order to make democracy work.

Ian Buruma is the Henry R. Luce Professor of Democracy, Human Rights, and Journalism at Bard College.

The Presidency of George W. Bush

A First Historical Assessment

Edited by Julian E. Zelizer

"Analytically shrewd and historically rich, this harvest of a book convenes a group of leading historians to assess the country's recent past. Ranging from tax cuts to terrorism, and encompassing questions of ideology, multiculturalism, and presidential capacity, the contributions to this volume establish the scope and agenda for future studies of George W. Bush's tumultuous presidency."

—Ira Katznelson, Columbia University

The Presidency of George W. Bush brings together some of today's top American historians to offer the first in-depth look at one of the most controversial U.S. presidencies. This book examines the successes as well as the failures, covering every major aspect of Bush's two terms in office. It puts issues in

broad historical context to reveal the forces that shaped and constrained Bush's presidency—and the ways his presidency reshaped the nation.

A Behavioral Theory of Elections

Jonathan Bendor, Daniel Diermeier,
David A. Siegel & Michael M. Ting

This groundbreaking book provides a behavioral theory of elections based on the notion that all actors—politicians as well as voters—are only boundedly rational. The theory posits learning via trial-and-error: actions that surpass an actor's aspiration level are more likely to be used in the future, while those that fall short are less likely to be tried later on.

The Litigation State

Public Regulation and Private Lawsuits in the United States

Sean Farhang

“Farhang is at the forefront of a new generation of scholars who have begun to broaden the parameters of the American state and its reach into society. Drawing upon an impressive range of methods, sources, and theory, Farhang shows us how Congress and the administration extended the reach of regulation by inducing private litigants and the legal profession to cocreate a vast regulatory regime. A shrewd reading of the new mode of state-building.”
—Dan Carpenter, Harvard University

The Litigation State investigates how American political institutions shape the strategic design of legislation to mobilize private lawsuits for policy implementation.

Presidential Party Building

Dwight D. Eisenhower to George W. Bush

Daniel J. Galvin

“In this meticulously documented and gracefully written book, Dan Galvin puts presidents at the very center of party-building activities. Sometimes he finds them investing in their party, other times exploiting it. But whether they do one

or the other, Galvin persuasively argues, critically depends upon their party’s hold on political institutions beyond the White House. Anyone interested in the growth and decline of parties in our system of separated powers should read this important book.”

Diaspora, Development, and Democracy

The Domestic Impact of International Migration from India

Devesh Kapur

"Kapur makes a powerful case that international flows of people are shaping the world in ways with which we have yet to come to grips. Kapur artfully combines case studies, statistical analysis, and new surveys, from both India and the United States, to paint a fascinating picture of India's experience that is full of twists and surprises. He documents how the Indian diaspora has been a source, not just of remittances, but also of ideas, networks, influence, and even democratic stability. Emigration leaves a large footprint on the Indian polity and economy. But whether it produces good or ill effects, Kapur concludes, depends more on domestic structures than on global ones."

The Clash of Ideas in World Politics

Transnational Networks, States, and
Regime Change, 1510–2010

John M. Owen IV

“This book is a major contribution to the literature on hierarchy in international relations. It empirically demonstrates more convincingly than any other study to date that forcible regime change is a normal tool of statecraft. Owen’s focus

on the importance of transnational ideological polarization as the primary cause of such activity is an explanation that materialists cannot ignore.”

Beyond the Invisible Hand

Groundwork for a New Economics

Kaushik Basu

"*Beyond the Invisible Hand* poses a fundamental challenge to the way that economists think about many of the most important issues of economic theory and policy. Written for both economists and educated laymen, the book lays out a new vision for

economics, one that will stimulate the reader to rethink current practice and give deeper consideration to issues often slighted in contemporary economic analysis. While the reader may not always agree with Basu's prescriptions, the importance of his contribution to the debate over the future of economics cannot be ignored."

Politics and the Imagination

Raymond Geuss

"These terrific essays confirm Raymond Geuss's status as one of the most thoughtful, honest, careful, original, and politically engaged philosophers of our time. Displaying Geuss's rich erudition in European languages, history, literature, art, and music, and his

unique capacity to use philosophy to illuminate current political conundrums, these essays are attuned both to the most delicate dimensions of human experience and subjectivity and the cruder phenomena of war, planetary collapse, party politics, and bourgeois complacency. This is a rich and wonderful book."

Cultivating Conscience

How Good Laws Make Good People

Lynn Stout

"This concise book makes meaningful linkages between social science work and basic areas of the law in ways that will engage and resonate with general readers. *Cultivating Conscience* offers much food for reflection."

—Robert C. Clark,
Harvard Law School

Contemporary law and public policy often treat human beings as selfish creatures who respond only to punishments and rewards. Yet every day, we behave unselfishly—few of us mug the elderly or steal the paper from our neighbor's yard, and many of us go out of our way to help strangers. We nevertheless overlook our own good behavior and fixate on the bad things people do and how we can stop them. In this pathbreaking book, acclaimed law and economics scholar Lynn Stout argues that this focus neglects the crucial role our better impulses could play in society. Rather than lean on the power of greed to shape laws and human behavior, Stout contends that we should rely on the force of conscience.

This book proves that if we care about effective laws and civilized society, the powers of conscience are simply too important for us to ignore.

Lynn Stout is the Paul Hastings Professor of Corporate and Securities Law at the UCLA School of Law.

Justice in Lüritz

Experiencing Socialist Law in East
Germany

Inga Markovits

"This is a marvelous book. It is beautifully written—Markovits has a wonderful, elegant, moving style; and the whole enterprise is informed by a passion for understanding, a gift for generalization, and a deep knowledge of the society and its people."

—Lawrence M. Friedman, Stanford Law School

As a child, Inga Markovits dreamt of stealing and reading every letter contained in a mailbox at a busy intersection of her town in order to learn what life is all about. When, decades later, working as a legal historian, she tracked down the almost complete archive of a former East German trial court, she knew that she had finally found her mailbox. Combining her work in this extraordinary archive with interviews of former plaintiffs and defendants, judges and prosecutors, government and party functionaries, and Stasi collaborators, all in the little town she calls "Lüritz," Markovits has written a remarkable grassroots history of a legal system that set out with the utopian hopes of a few and ended in the anger and disappointment of the many.

Brimming with human stories of obedience and resistance, endurance and cunning, and cruelty and grief, *Justice in Lüritz* is ultimately a book about much more than the law, or Socialism, or East Germany.

Inga Markovits holds the "Friends of Jamail" Regents Chair in Law at the University of Texas, Austin.

Lawyers and Fidelity to Law

W. Bradley Wendel

"Lawyers and Fidelity to Law is a fine book that makes an important and original contribution to legal ethics. Wendel replaces each element of the standard conception of legal ethics with a more appealing substitute, and his writing is clear, lively, and well-illustrated."

—Arthur I. Applbaum, Harvard University

Even lawyers who obey the law often seem to act unethically—interfering with the discovery of truth, subverting justice, and inflicting harm on innocent people. Standard arguments within legal ethics attempt to show why it is permissible to do something as a lawyer that it would be wrong to do as an ordinary person. But in the view of most critics these arguments fail to turn wrongs into rights. In *Lawyers and Fidelity to Law*, W. Bradley Wendel introduces a new conception of legal ethics that addresses the concerns of lawyers and their critics alike.

The Limits of Constitutional Democracy

Edited by Jeffrey K. Tulis & Stephen Macedo

Constitutional democracy is at once a flourishing idea filled with optimism and promise—and an enterprise fraught with limitations. Uncovering the reasons for this ambivalence, this book looks at the difficulties of constitutional democracy, and reexamines fundamental questions:

What is constitutional democracy? When does it succeed or fail? Can constitutional democracies conduct war? Can they preserve their values and institutions while addressing new forms of global interdependence? The authors gathered here interrogate constitutional democracy's meaning in order to illuminate its future.

The Judge as Political Theorist

Contemporary Constitutional Review

David Robertson

"This is a book by a political scientist that goes well beyond the political-science literature on constitutional courts and constitutional adjudication. Robertson sees new types of constitutions emerging that are not just legal documents structuring the political system, but are designed to give binding force to those values to which a society aspires, in most cases after a deep break in their history. This is a remarkable piece of research."

—Dieter Grimm, Humboldt University of Berlin and Yale Law School

The Judge as Political Theorist examines opinions by constitutional courts in liberal democracies to better understand the logic and nature of constitutional review. David Robertson argues that the constitutional judge's role is nothing like that of the legislator or chief executive, or even the ordinary

judge. Rather, constitutional judges spell out to society the implications—on the ground—of the moral and practical commitments embodied in the nation's constitution. Constitutional review, in other words, is a form of applied political theory.

Who Cares?

Public Ambivalence and Government Activism
from the New Deal to the Second Gilded Age

Katherine S. Newman & Elisabeth S. Jacobs

*"The deep ambivalence Americans feel about government has always been central to our politics, and it's an especially vital matter now with the rise of Tea Party movements and other assaults on public power. Americans often want a smaller government that does more, a difficult recipe for politicians to follow. That's why *Who Cares?* is so timely and so important. Katherine Newman and Elisabeth Jacobs have done a superb job tracing the history of our ambivalence and suggesting where we might go from here. They will be the talk of academia—and the talk shows."*

Why People Cooperate

The Role of Social Motivations

Tom R. Tyler

"Tyler suggests that the conventional story of why people cooperate—for material self-interest—is actually an impoverished account, and he carefully and cumulatively builds his case to demonstrate that cooperative behavior is caused more by

social motives than self-interested ones."

How Outsourcing is Changing the Way Indians Understand Themselves

Shehzad Nadeem

"A majority of America's Fortune 2000 companies say that off-shoring is an integral part of their growth strategy. So what's it like on the other side? Nadeem takes us into the back offices where Indian workers take American calls on all-night shifts under tough conditions. Yet workers also feel elevated by the pay and imagined participation in an American lifestyle which is, ironically, receding in the United States. An extremely well-informed and deep look at a crucial issue of the age."

The Hoods

Crime and Punishment in Belfast

Heather Hamill

"This is an interesting book on an important subject. Through description and analysis, Hamill uncovers the inner mechanisms of informal punishment in West Belfast and makes very clear the trade-off between its effectiveness and the greater legitimacy of state-sanctioned institutions. The picture of informal organizations and how they evolved over time is fascinating. And one can only commend Hamill's courage and industriousness in researching the community of 'hoods' who are the targets of both official and unofficial justice."

Diversity and Complexity

Scott E. Page

"Page engagingly seduces readers into rather deep ideas in complex systems, including sophisticated mathematical formulas, by using a relaxed style with lots of examples. Yet the treatment is rigorous."

—Simon A. Levin, Princeton University

This book provides an introduction to the role of diversity in complex adaptive systems. A complex system—such as an economy or a tropical ecosystem—consists of interacting adaptive entities that produce dynamic patterns and structures. Diversity plays a different role in a complex system than it does in an equilibrium system, where it often merely produces variation around the mean for performance measures. In complex adaptive systems, diversity makes fundamental contributions to system performance.

Scott E. Page is the Leonid Hurwicz Collegiate Professor of Complex Systems, Political Science, and Economics at the University of Michigan and an external faculty member at the Santa Fe Institute.
